## Madrid Expects Big Rebel Drive To Take Capital

Believe Concentrated Effort To Capture City Is About To Be Made

## HUGE BOMBARDMENT OF CAPITAL STARTS

Military Commanders Have Been Anticipating "Big Push" For Several Days

By THOMAS A. LOAYZA  
International News Service Staff

MADRID, Dec. 8.—Quaking to a thunderous bombardment that sent scores of shells screaming into the western and mid-eastern section of the city, Madrid today steered itself for the second concentrated rebel attempt to take the capital. "The final attack on Madrid is expected today," Gen. Quelpo De Llano, insurgent spokesman, said over the Seville radio. Bombardments of Madrid bore out this prediction, while greatly intensified air and land activity on other fronts was believed intended to keep Loyalists elsewhere from rushing to the aid of the battered metropolis.

## Anticipate Big Push

Military commanders who have been anticipating the "big push" on the city for several days, awoke to the sound of its destructive prelude today. Demolishing buildings, starting fires, and adding an unnumbered toll to the death list, shells smashed into the sector along the east bank of the Manzanares.

Others shrieked in a high trajectory over the central part of the city and detonated near the British embassy. Thirty-three rebel airplanes meanwhile bombarded Guadalajara, northeast of Madrid. Heavy fighting is reported going on there, and this fact, coupled with shelling of the eastern part of Madrid, leads

## PA NEW OBSERVES

Returning from a hunting trip into the woods up around Driftwood, Pa., Theodore Klingensmith, 602 Chestnut street, brought with him a fire six-point buck which he shot as he roamed the hills last Saturday.

Pa New notes that there is a large hole forming at the intersection of Rural avenue and Neshannock avenue, right in the middle of the roadway. The new highway is being widely used and the bad spot should be fixed before it becomes larger.

At 8:30 this morning a large truck loaded with live chickens passed through the downtown district with most every chicken crowing and attracting considerable attention. The truck load could be heard approaching for about two blocks.

Numerous steaming radiators were noticed on the streets of New Castle last night as evidence that the owner of the car had failed to have anti-freeze solution in his radiator properly checked and was unprepared for the sudden drop in the temperature.

Report comes from Andrew Mellich, 1802 South Jefferson street, that he was successful in shooting a 6-point buck on the opening day of the hunting season. He was hunting in the vicinity of Torpedo, in Warren county.

Something new in the way of snow characters is noticed in the yard of a home on West Washington.

## Sympathy Of English Turns To Mrs. Simpson

By KINGSBURY SMITH

LONDON, Dec. 8.—"What a grand gesture! How she must be suffering!" These words, uttered by a young Englishwoman standing in evening dress in Piccadilly Circus early this morning, epitomized the sympathy of British womanhood today for Mrs. Wallis Simpson in the hour of her ordeal.

## Would Give Up King

This sympathy for the beautiful American woman who voluntarily offered to give up the King of England because of her love for him is sweeping England in an irresistible wave.

## Britain Awaits Move By King

British Press Agrees Next Step Must Come From Monarch

(International News Service) LONDON, Dec. 8.—Premier Baldwin and Mrs. Simpson having spoken the next move in the constitutional emergency is now definitely up to the king, the British press agrees today, adding that the possibility of a solution has been greatly enhanced by Mrs. Simpson's willingness to "withdraw."

"Mrs. Simpson has made a great gesture," says the Glasgow bulletin. "She has earned the empire's gratitude, and it now remains for the king to complete the act of renunciation."

The London News Chronicle points out that "no certainty at present exists that this means the end of the crisis. King Edward has yet to speak. His utterance cannot be for long deferred. "The way of personal renunciation has been made clear for him by the act of the woman he loves. What she can do he also can do, and it is his duty to do it."

## Tyrell To Head Fraternal Police

Other officers named for the year are as follows: Vice president, Detective John Young; treasurer, Patrolman David Nelson; secretary, Sergeant Grover C. Sylling; trustee, Patrolman Harry Plimmer; inside guard, Patrolman Robert Dukes, and outside guard, Patrolman H. E. Richards.

## Attorneys For Mrs. Simpson In Conference

(International News Service) LONDON, Dec. 8.—A visit by Mrs. Wallis Simpson's divorce attorneys to the president of the divorce court was open to two interpretations today: either efforts are being made to speed up her final decree, or the court is making some investigation in the case. Norman Birkett and Walter Frampton, who won a decree nisi for Mrs. Simpson at Ipswich, were called before the court president in London on a private summons.

## New Castle Youth Hurt While Hunting Deer At Clearfield

(International News Service) CLEARFIELD, Pa., Dec. 8.—Harry McCracken, 17, of New Castle, suffered the loss of two fingers of his right hand and a bad flesh wound in the arm near the shoulder when his gun discharged as he fell from a tree today while watching for deer. He was reported resting well at Memorial hospital.

## Chest Office To Be Opened

Board To Have Permanent Office In Downtown District

## WILL NOT PUBLISH CONTRIBUTOR'S LIST

A permanent Community Chest office where pledge payments may be made will be opened within the near future in the downtown section. Community Chest officers indicated today.

At its meeting last night the chest board of directors approved the appointment of Walter W. Duff, Louis B. Round and Marcus Feuchtwanger as the committee to locate office space and to select an office attendant.

## Campaign Is Reviewed

Reports of the closed chest campaign in which about \$50,000 was subscribed by citizens for the support of eight welfare and character-building agencies during 1937, were submitted to the directors last night.

Mrs. Sarah Sankey McCune was named treasurer of the chest organization during the meeting. The Lawrence Savings & Trust company was named its depository.

President W. Keith McAfee presided last night and greeted several board newcomers, representative of several of the city's organizations and groups. In behalf of the chest, Mr. McAfee made it known that the board greatly appreciates the efforts of all who participated in the recent campaign. The drive leadership of David S. Pyle was praised.

## Will Not List Givers

Before adjourning, the board moved to forsake its original plan to publish in full in The News the entire roll of this year's campaign subscribers. It was felt that an office expense involved would not justify the late publication.

The board during 1937 will meet alternately in the headquarters of the eight agencies that comprise the Chest, and on Monday, January 11, the directors will gather at the New Castle hospital for a regular business meeting.

Last night's meeting took place at the Y. W. C. A.

## Kane Church Fire Damage Is \$50,000

Church Is Smoldering Mass Of Ruins Today, Workmen May Have Been Cause Of Blaze

(International News Service) KANE, Pa., Dec. 8.—Almost a complete loss, the large First Congregational church here was damaged to the extent of approximately \$50,000 it was estimated today as the flames were finally subdued after resisting all firefighting efforts throughout the night.

Twice during the night flames broke out of the smoldering ruins as firemen watered the debris throughout the dark hours. Their efforts were hampered by the bitter cold, which reached a low of 6 degrees below zero at 4 a. m.

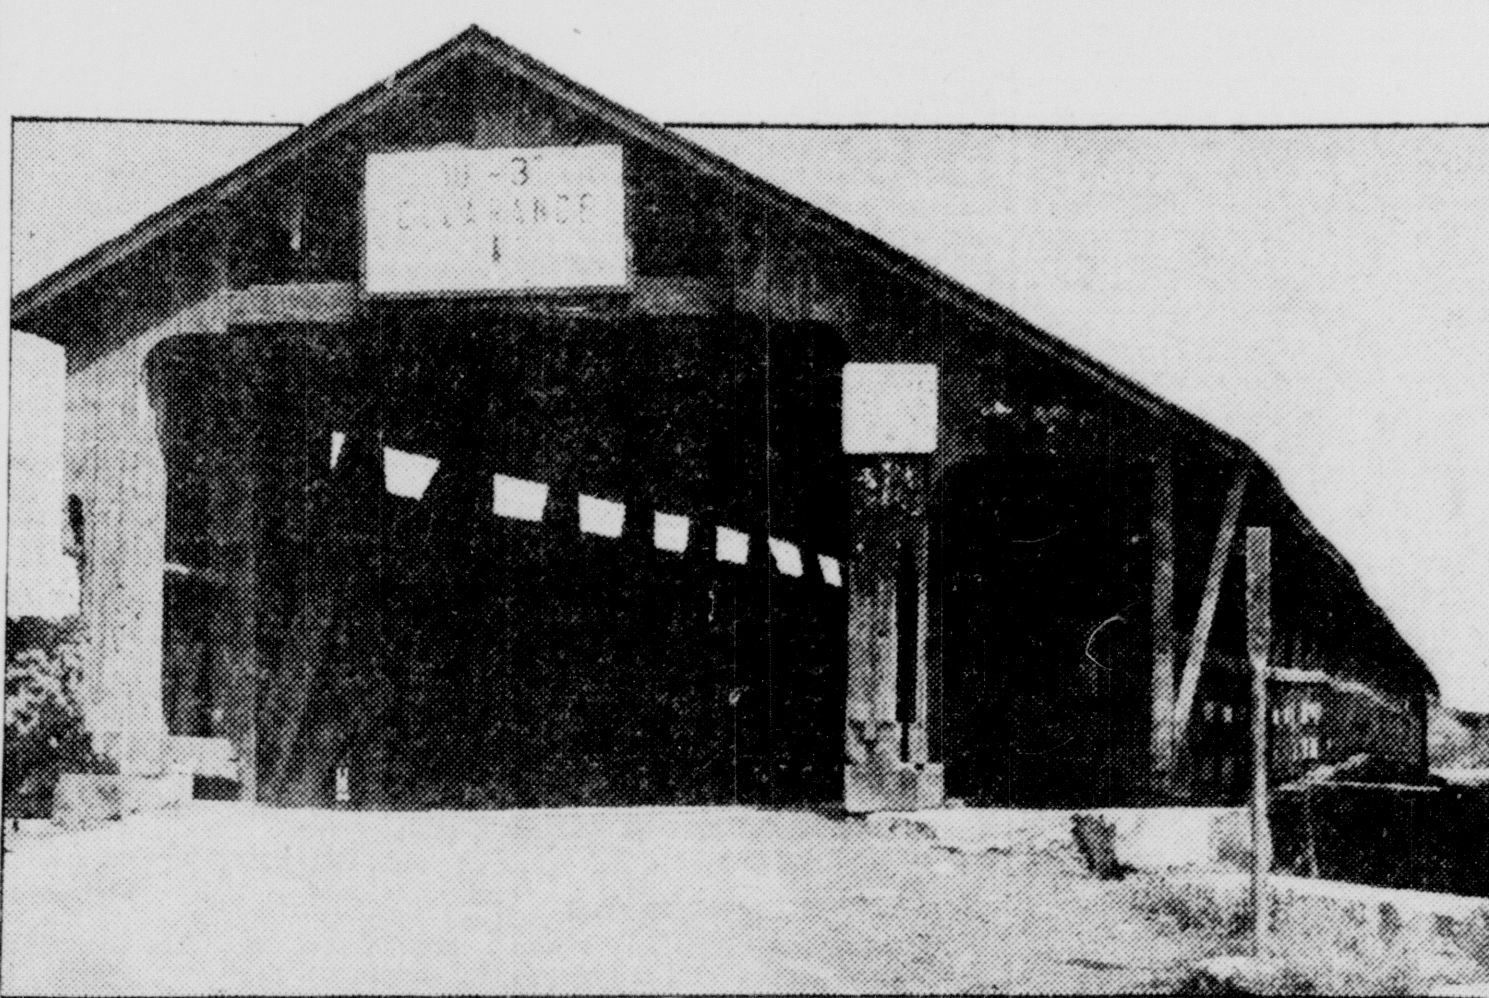

The blaze was believed to have been caused by charcoal heat being used in the edifice by workmen preparing it for the 50th anniversary celebration here next year. Its roof caved-in, and its interior completely wrecked, the church presented a bleak appearance to shocked and saddened parishioners who viewed the wreckage this morning. Only the walls were left standing.

CANNES, France, Dec. 8.—With self-sacrifice her chosen keynote, Mrs. Wallis Warfield Simpson made a gallant attempt today to live the life of an ordinary individual behind the closely guarded walls of Mr. and Mrs. Herman Rogers' villa Lou Vieil.

Distressed and upset last night after issuing the historic statement in which she expressed willingness to give up King Edward if such a step would solve the crisis into which his empire has been plunged, she was described as being in good health and spirits today.

No one here was able to throw any light on the mystery surrounding her departure from London of a specially chartered airplane for Cannes, reported to contain a physician and two British home office officials.

Lord Brownlow, secretary and lord-in-waiting to King Edward who accompanied Mrs. Simpson on her automobile dash to Cannes, declined to see a press committee daily.

## Probe Accident At Launching Of Big Battleship

Hitler Orders Investigation, Ship Crashes Down Way And Into Pier

(International News Service) BERLIN, Dec. 8.—Racing down the greased ways out of control under the eyes of Reichsfuehrer Adolf Hitler, Germany's second 26,000-ton battleship was reported to have crashed into an opposite pier at its launching in Kiel today, narrowly missing several sailors.

The big boat, piercing a stone wall, forced a line of marines and sailors to scamper into retreat. No one was injured. Tugs worked feverishly to pull back the battleship, while Hitler ordered an immediate investigation of the cause of the mishap. Damage to the battleship, christened the Gneisenau, was not stated.

## WALLY'S ATTITUDE SHOCK TO KING

American Woman's Offer To Sacrifice Her Marriage Comes Rather Unexpectedly

By DAVID P. SENTNER

LONDON, Dec. 8.—In an atmosphere of mystery and secrecy, the crisis arising from King Edward's plans to marry Mrs. Wallis Warfield Simpson took new form and shape today, with sudden developments occurring simultaneously with the government's refusal to make any new statement in the house of commons.

Three members of Mrs. Simpson's legal staff left by chartered airplane for Cannes on an unexplained mission while Prime Minister Stanley Baldwin, accompanied by Walter T. Monckton, chief counsel to King George, departed by motor car for Port Bredene, the monarch's county residence.

## Mrs. Simpson Offers Sacrifice

Both developments followed directly in the wake of Mrs. Simpson's statement in Cannes last night that, if it will solve the crisis, she is willing to sacrifice the romance which has riveted attention of the world.

That the situation is rushing toward some swift climax, the ultimate nature of which cannot be hazarded at the moment, was confirmed by the press association.

This organization stated in advance to all London newspapers that, according to the view in well-informed parliamentary quarters, the crisis will have been ended within 24 hours, and that in all probabilities Baldwin will have a statement to commons tomorrow.

The attorneys for Mrs. Simpson who braved a heavy English mist and adverse weather on the continent to fly to Cannes were Theodore Goddard, her solicitor, who (Continued On Page Twelve)

## Crossing Will Be Quiet Event

Mid-Summer Temperature Is Being Experienced On Trip North

CHARLESTON GOAL ON DECEMBER 15

By GEORGE DURNO International News Service Staff Correspondent

ABOARD U. S. S. CHESTER, AT SEA, Dec. 8.—President Roosevelt will cross the equator late today aboard the cruiser Indianapolis, but this time the event will be quiet in contrast to the uproarious ceremony on the southward journey when King Neptune exacted tribute from the uninitiated.

While the ship's newspapers are telling of snow and below-freezing temperature at home, the president is cruising through blue tropical seas with the mercury creeping up towards 100 degrees at noon, and dropping only to 79 at midnight.

Mr. Roosevelt is catching up on an accumulation of official reports and working on his legislative program for the next session of congress, but finds time with other members of the party to sunbathe and watch the flying fish.

The schedule now calls for arrival at Charleston, S. C., Dec. 15, preceded by a brief stop at Port Au Prince, Trinidad, on the 11th.

timbers could talk they could probably recount some romantic tales of the pathway which is on the right of the bridge.

When the old covered bridge was dedicated, the Civil War was a long way off, slavery was a controversial issue, and the nation was interested in the debates of Lincoln and Douglas. Lawrence county was but seven years of age, as a county, and New Castle had been chartered as a city only 21 years.

Beaver hats and hoopskirts were common sights over the old bridge and Edenburg was an important place in the life of the county. Over the heavy planks of the cartway have thundered the hoofs of a myriad of horses, the structure has reverberated to the moaning of cat-

ton street extension. This is a snow man, or lady, dressed very picturesquely in a gay red house dress, wide brim straw hat, and a battered umbrella. It attracts considerable attention from passing motorists.

When his two sons, Ellis and Verne, left in two different deer hunting groups for the big woods, their father, H. L. Boyd, of Harlanburg, remarked that he would have a deer waiting for them upon their return. And when they did return home, they learned that he had stepped across the Lawrence-Butler county line and brought down an eight-point buck.

(Continued From Page One)

to the belief that Rebel General Francisco Franco plans to attack the capital from the northeast as well as from the west.

## Prepare For Attack

A strongly-equipped column of government troops, however, was reported preparing for an attack on the rebel lines at Toledo. Although strongly reinforced, the insurgent eastern flank south of Madrid is still dangerously exposed.

To the northwest, in the Guadarrama mountains, the insurgents are now being aided by snowy weather, which has forced the Loyalist militiamen to abandon some important posts, according to rebel broadcasts.

Bombing Seville again in a raid in which five airplanes participated, Loyalists hit a Norwegian steamer tied up at a wharf in the Guadalquivir river, according to reports here.

Other government planes dropped 100 bombs on Villa-Neuva and Alava.

A government attack on the Belchite sector was beaten off with heavy Loyalist losses, a statement over the rebel radio at Salamanca said, adding that relentless artillery and rifle fire continues on the Monragon front.

Reports that Italian blackshirt regiments had landed at Algieria to help the rebels were officially denied at Salamanca.

Another international development today was the demand of Foreign Minister Alvarez Del Vayo that the Finnish diplomatic mission be recalled following the reported arrest in the Finnish legation of 535 Spanish refugees.

Del Vayo called the incident "a scandalous, inexcusable abuse of diplomatic privileges."

## MRS. SIMPSON REMAINS BEHIND GUARDED WALLS

(Continued From Page One)

of speculation regarding Mrs. Simpson's future plans and King Edward's probable reaction to her offer of renunciation was the observation that she plans to spend Christmas in Cannes.

Mrs. Simpson, he insisted, has not consulted a physician and has no need of one.

The Baltimore kid whose announced readiness to put throne and empire before love has won her the plaudits of millions, arose fairly early and ate a full breakfast—American style, but remained inside the villa instead of attempting a constitutional in the gardens which are the constant target of scores of photographic lenses.

In spite of Lord Brownlow's implied reassurance Mrs. Simpson plans no immediate change in her status, Cannes was abuzz with the wildest rumors.

Most of them centered about the object and destination of the "mystery plane." Some observers felt that if the craft actually carries home office men, their only object in coming here can be to inform Mrs. Simpson that King Edward has decided to accept her offer—that duty compels him to remain on his throne at the head of his empire and join her in renunciation of their romance.

## SYMPATHY OF ENGLISH TURNS TO MRS. SIMPSON

(Continued From Page One)

in the eyes of the British people. Her popularity has soared to amazing heights as the result of her willingness to make woman's greatest sacrifice—to give up the man she loves in order not to interfere in his career.

Whereas up to yesterday a majority of the British people, particularly women, were inclined to regard Mrs. Simpson's entry into the private life of King Edward as something to be deeply regretted, today every bus, street car, subway train, and office is filled with praise for the character of a woman who could make such a sacrifice.

Offers Withdrawal

Word of Mrs. Simpson's proffered "withdrawal" momentarily stopped merriment in the West End and Mayfair in the early hours of the morning.

As newspaper extras reached night clubs, joy-makers forgot their own pleasures, champagne suppers were left untouched, and couples left the dance floors to cluster in small groups and read the papers.

A hush fell over many places for a few moments, and even the music failed to dispel the feeling of solemnity which marked the realization that this was a tragic development in one of the world's greatest romances.

Women were particularly moved—understanding that a woman's love was being crucified in order that a man might carry on as monarch of England.

When the night clubs closed, the national anthem was played to wildly enthusiastic crowds. In many places "God Save The King" was played many times, ending always with cheers.

Heavy Circulation Of Silver Coins

WASHINGTON, Dec. 8.—Heavy increases in the circulation of silver and minor coins were noted during the past few months, in treasury figures released today.

There were considerably more half dollars, quarters, dimes, nickels and pennies in use this year than in 1935. Officials attributed the rise in coin circulation to operation of sales taxes in many states, the rush of dividend payments by corporations and general improvement in retail sales.

# WOMAN'S CLUB HEARS ADDRESS ON CRIME

A vivid analysis of crime and a recital of the methods by which criminals escape, keenly interested a large attendance of Woman's club members Monday afternoon, in the Highland U. P. church, when "Tony" Curtin, widely known crime investigator and newspaperman addressed them.

The speaker, whose subject was, "Calling All Cars," was introduced by Mrs. John E. Elliott chairman of the program committee in charge of the day's meeting.

In analyzing the factors which cause the United States to produce more crime than any other country, he laid the responsibility upon the following: a large influx of criminals, lack of co-operation between county, state and federal officers, and probabilities of acquittal, if brought to trial, due to intimidation of witnesses and technical adroitness of unscrupulous attorneys.

Mr. Curtin described the personalities of notorious criminals whom he has observed paid tribute to members of the police departments who track them with ruthless courage, and consider it all in the day's work.

Rackets have become the biggest element in crime today. They are based upon intimidation and are operated upon an enormous scale. In conclusion, the speaker advocated the development of character and moral integrity in youth as an antidote against malign influences.

Mrs. Harry L. Gormley, president of the Woman's club, presided over the meeting, and welcomed as special guests, presidents of other federated clubs in the county. Hostesses for the afternoon were Mrs. P. S. Tannehill and Mrs. D. C. Lindley.

During the business session, the following departmental announcements were made: Department American Home, meeting today, December 8, in the home of Mrs. W. A. Womer, Highland avenue; Department International Relations, Mrs. W. L. Cosel, North Mercer street, Thursday, December 10; Department Education, Monday, December 14, at 1:30, Highland U. P. church; Department Conservation, Wednesday, December 16, Mrs. J. C. Gillfillan, Glenmore boulevard.

The next regular meeting of the Woman's club will take place on Monday, December 14, in Highland U. P. church. The program will be in charge of the American Home department, and will be featured by a Christmas tea.

"All through the ages, evergreens have symbolized a belief in eternity, and a love for Jesus Christ."

Mrs. William Reed had for her topic, "Christmas Everywhere," and she told of the Christmas festival as it is observed in different countries. She said, "All Christendom owes much to its pagan ancestors for most of our Yuletide customs. The universal Christmas spirit is the prevailing thought of all nations." Mrs. Louis B. Round had an inspirational devotional period.

A Christmas playlet was presented with the following in the cast: Mrs. Donald Lusk who portrayed the Spirit of Christmas; Mrs. W. A. Woodworth, the Spirit of Love; Mrs. Harry McKee Jr., Spirit of Service. Others in the cast were Mrs. M. A. Brown, Misses Gene Melvaine and Phyllis Woodworth.

The King Is The Judge.  
Kings On Rougher Roads.  
One Pillar Missing.  
By ARTHUR BRISBANE

IN ENGLAND the big papers are not published on Sunday, statesmen cease from troubling, the Archbishop of Canterbury is busy and the weary public hears little of the Wallis Simpson-King Edward case.

There is little news today except that Mrs. Simpson in her first public utterance, given to Universal service, says she leaves her future and all decisions to the King. "The King is the only judge."

IF KING EDWARD should lose in the controversy, as well-informed believe he will, another "George" will sit on the throne. The king's brother, now Duke of York, would call himself "King George, the Sixth."

COL. JOSIAH WEDGWOOD, member of parliament, editor of the official "History of Parliament," recognized authority on parliament's powers, says the oath of allegiance already taken by the House of Commons settles the matter; the presence or absence of any particular bishop or archbishop during the coronation would make no difference. "Anointing with holy oil is in line with ecclesiastical tradition," but it is of no consequence.

KING EDWARD may enjoy reading about predecessors that have had worse trials than his. "James II ran away, threw the great seal into the Thames, spent the rest of his life trying to get it back."

Charles I was executed by Cromwell, who was born a king on his own account and proved himself greater than the king due to an accident of birth.

Three English kings were deposed and privately murdered. Richard II, abdicated, parliament accepted his resignation and made his cousin king; then Richard was murdered.

COL. WEDGWOOD wonders that anyone should dare suggest the abdication of "the most popular and most human king we have ever known," but ingratitude and hypocrisy make a strong combination.

As regards objections by the colonies, South Africa, Australia, Canada, Col. Wedgwood remarks: "We have to put up with a good deal from the Dominions in these later days, but we are (Continued On Page Seven)

## DO A LITTLE THINKING.

Ever since Franklin Delano Roosevelt was elected President of the United States in 1932, the people of this country have been doing some heavy thinking. They have had good cause for thinking. They have been puzzled, pressed at, boondoggled, bombarded and coddled with the philosophy of governmental benevolence until they hardly know whether they are afoot or horseback.

Their curiosity has directed their attention to other parts of the world where millions of people have had dictatorial forms of government thrust upon them, and many of them are wondering if it wouldn't be more satisfactory to let the government do all the worrying, and settle down and see what would happen.

While pausing under this day dream, the emissaries of those foreign dictatorships have been feverishly working on the minds of erstwhile free Americans, plugging them with the doctrine that the time has come to revolt against the domination of the rich and set up a government run by the poor.

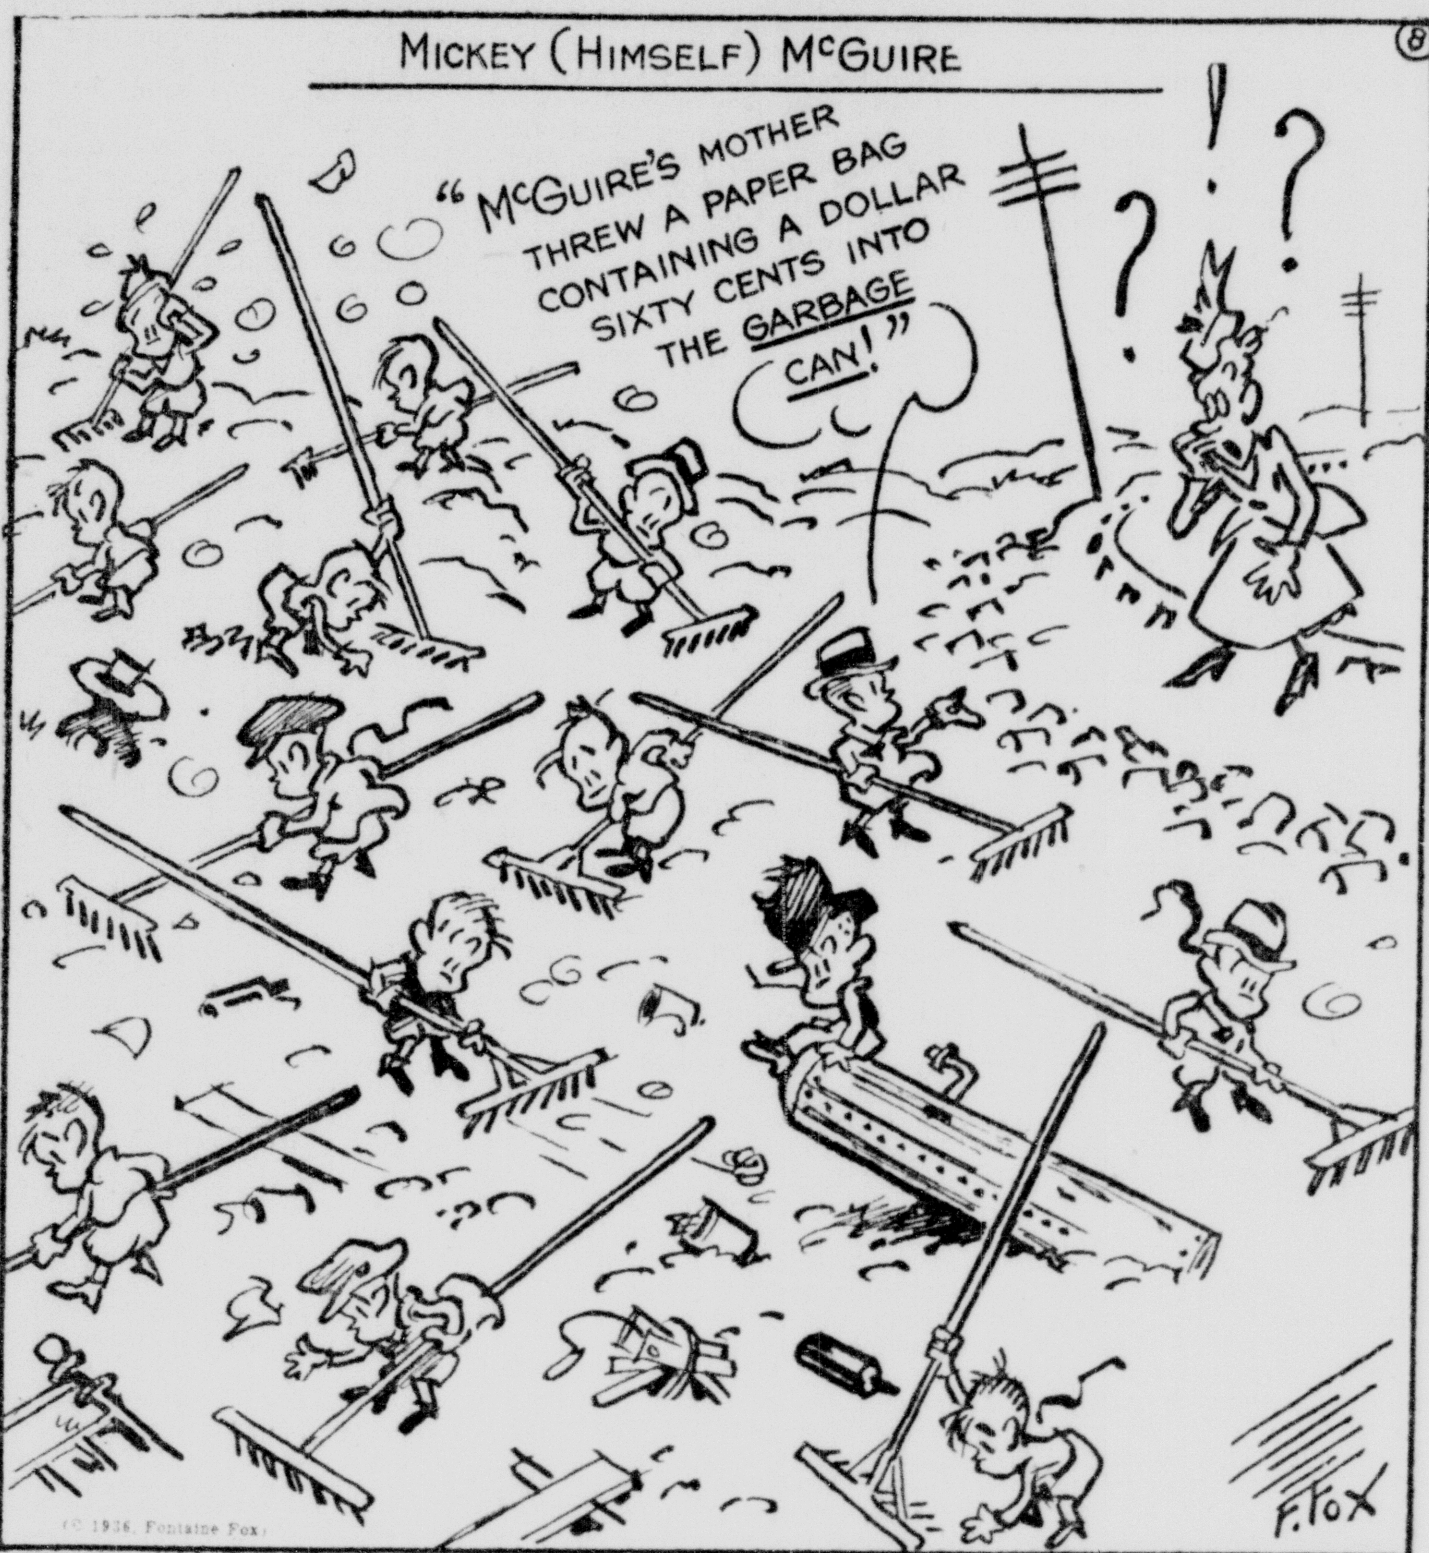

Russia has been the leading exponent of this alluring proposition because Communism is international in scope and for the reason that it was the first in the field years ago.

Of all the present list of world dictators, Stalin of Russia is no doubt the shrewdest. He is a life-long revolutionist, picked out by his mother to become a clergyman, but missed. He is a careful, slow-moving organizer, but relentless and cold-blooded in the pursuit of his purposes. His aim is world-domination by the Communist International, and he allows nothing to stand in his way. He is in no hurry. He maintains an iron hand over his people in Russia and permits no deviation from the rule on penalty of death.

Communism differs from Nazism in Germany, in that Nazism is the brainchild of Adolf Hitler, and aspires solely to nationalization and through socialism of the German-speaking people, and the development of a super-race of pure-blooded Germans. The source of Hitler's power is the same as other Dictators. He appealed to the Germans when they were down and offered to save them. He played on their race pride, and claimed that he and he alone was the man who could restore Germany to its proper place in the sun. He is credited with not having a personal friend in Germany and with cutting down and executing men who had contributed most to his ascendancy. He is unmarried and uninterested in family life except as it is the means of producing more Germans. He himself is above family responsibilities. His own near relatives of his native Austria are poverty-stricken and never hear from him. Attempts to interest him in women are unavailing. Not that he is unwanted by the women, but when pretty women are assembled for his diversion, he spends his time shouting politics at them, and they leave in despair. He is ignorant and uneducated, and (Continued On Page Seven)

Sun sets tonight 4:45. Sun rises tomorrow 7:10.

A committee of legislators are discussing ways of reducing local governmental costs in the different cities, boroughs, and townships of Pennsylvania. Most any citizen can tell you where savings could be made, but running the gauntlet of politicians is a different matter. The tendency is to make more jobs, instead of decreasing them.

We learn that both "Wally" and Earnest Simpson, are retained in the "Social register" for 1937. So this relieves of us another worry.

The fellow with one chance in a hundred accepts the odds, hoping the market will change.

The Democrats have won about everything there is to win so it's a good thing to let them run things their way and help them along when it is necessary. We are all interested in the welfare of our country.

Honesty is the best policy in life. With so many of the other politics a fellow has to do to win.

Pedestrians who feel that the concrete roads as motorists can keep on thinking that way if they have sense enough to step off the concrete, when two cars are approaching in opposite directions at night. Otherwise they may not be able to do any thinking at all. Just remember that the motorist can see you with a glaring headlight in his eyes.

Roger Babson says Christmas trade will be the best seen in this country since "boom" days. Local stores would indicate that New Castle merchants are thinking the same way. Heavy stocks are carried and sales indicate that holiday shopping is already in our midst.

When President Roosevelt referred to the "forgotten man" he overlooked the poor girl who has to support him.

The nearer it gets to Christmas the more we feel like cussing out Santa Claus. Maybe this will get us more than blowing him to the skies every year. Really he hasn't anything we want at that.

## The World At A Glance

Royalty Ties Up Possessions.  
Need Protection Of English Navy.  
Canada Has Perplexing Questions.

By LESLIE EICHEL

Central Press Columnist

OPPOSITION OF THE British cabinet to King Edward's marriage to Mrs. Wallis Warfield Simpson has stirred up more questions than had been intended.

People are asking: "Why should there be a British Empire?" "Why should Canada or Australia or South Africa be bound to a small country on an island in the North Sea?"

There may be no binding tie except the monarchy, it often is said, but why have even that?

The dominions — such as Canada — pay no tax tribute to the mother country, in fact, pay no tribute whatsoever except homage to the common flag and the common sovereignty.

But why not break the final tie, why not stand completely alone? The answer may be—the British navy.

## PROTECTION NEEDED

Certainly, Australia, New Zealand and Canada need naval protection. The United States could protect Canada, in fact, would have to, in order to protect itself. Canada realizes that, this takes more interest in the American naval-building program than in the British.

It thus is not the monarchy that holds the British Empire together, but, so far as the dominions are concerned, the navy. And when it comes to India and Egypt and mandated lands, it is not the monarchy that counts in the least, but British power, diplomacy and intrigue.

England is the wealthiest nation in the world, for it has dominated the trade routes of the world since the days of Queen Elizabeth. And money is power. The smooth-talking British diplomat can afford to be soft-spoken; his gloved fist has power in the nth degree.

## AMERICAN OR BRITISH?

But why do Canadians bow at the feet of a monarch across the sea? Are they not like Americans—in fact, are they not blood-brothers to Americans?

No, they are British. At least, the majority of Canadians are. There are no greater nationalists than the British. When they penetrate a land, conquer it, then that is a blessing to the land, a benefit to its conquered peoples—we hear. And the British believe that. They have no inferiority complex as to the remainder of the world. They merely have inferiority complexes in regard to themselves among themselves. Class distinction remains a British institution.

Americans vulgarly boast that they are the savior people of the world. A Britisher does not have to boast — he knows it, demonstrates it to his own satisfaction.

Canadians enjoy coming to New York, to Florida, to California, but it is questionable whether they would enjoy amalgamation with the United States. Yankees have a habit of "vulgarizing" lands that they penetrate. Yet, there is much longing in Canada for a President Roosevelt and something more evolutionary—or revolutionary — than has been served up in that land. Canada is fearful of being swallowed up by the Yankee colossus. Britain lives and lets live—but Britishers are not so sure.

TUESDAY, DEC. 8.

Notable Nativities—William Henry Cardinal O'Connell, b. 1859, archbishop of Boston and dean of the Roman Catholic clergy in the United States.

Percy Leo Crosby, b. 1891, creator of Skippy, who proves comic artists can be artists. He is one of the most distinguished of American etchers, water colorists and painters.

Hervey Allen, b. 1889, novelist, Anthony Adverse, etc. Kenneth Lewis Roberts, b. 1885, novelist, Rabble in Arms, etc. He's from Kennebunk, Me.

Jean Julius Christian "Jan" Seibelus, b. 1865, Finn renegade by many. He was the greatest living composer. He was a failure as a lawyer, but so much of a success as a musician that the Finnish senate voted him a pension for life when he was only 32, as a gesture of national gratitude.

Rt. Rev. Stephen J. Donahue, b. 1894, who became auxiliary bishop of New York in his thirties.

Today's Yesterdays—Dec. 8, 1267. The miraculous crossing of the River Jordan by Joshua related in the Old Testament, was repeated!

At Danaher (the Biblical Adamah) there are cliffs that crumble into landslides, and these are known to have interrupted the flow of the river on several historic occasions, notably on the date above, when the bed of the river was dry for 16 hours and anybody could cross the Jordan without getting wet. In 1906 there was a similar occurrence, and during an earthquake in 1927 the Jordan was held back 21½ hours, enabling many to cross and recross the stream on foot.

Dec. 8, 1662—Christina, daughter of Charles XIV of Sweden, mounted the throne as king, on her 18th birthday. Brought up in as masculine a way as possible by her father, who had no sons, she had herself crowned as king, not queen, following his death in Austria after he had conquered Russia, Poland, Germany and Denmark.

She gave up the throne rather than marry! She ruled forcefully and until she tired of being importuned by her ministers to take a husband, then abdicated in favor of

tain may be decadent. Canada has been fearful over that too, in the recent war crises. Britain has been terribly muddled. The United States has been less so. It has gone vigorously into a peace conference of the Americas. Canada felt bad that it was the only American nation which could not attend the conference.

## WHY NOT?

Why couldn't Canada attend the Buenos Aires conference?

As a ward of Great Britain, Canada would involve Europe in a purely American affair if it had attended.

And now Canada is fearful that it may be involved in a purely European affair if the British cabinet muddled over a king's marital affairs, gets badly involved in Europe's martial affairs.

But it does seem strange that a man "way off in British Columbia or Manitoba, or even in Ontario should be affected by the balance of power on the continent of Europe, or even a mere fracas in the Balkans—or over a cabinet crisis in England because some dignitaries, who live in a "tight little isle" insist that the king must not marry Mrs. Simpson.

## ADVISING THE LAD

The task may be simple, the pay may be small.

You may fancy your work isn't needed at all.

But if it were something that wasn't required.

To do it, my boy, you would never be hired.

When employers pay wages, remember, my son.

The job is important. They want it well done.

Whenever they give you some duty to do.

If you think it beneath you, it's goodbye to you!

The work will remain, though you like it or no.

Isn't the job it is you they'll let go.

An ad in the papers next morning will say:

"Boy wanted who's willing to work for his pay."

Just remember the work is important, my son.

To the man who spends money for having it done.

He'll know how you do it. It won't take him long.

To learn if his judgment in you has been wrong.

If you're too proud your best with the small task to do.

The job just above won't be offered to you.

Now a job is a start. It's like opening a door.

Into rooms where you never have ventured before.

It's a chance that is offered for boys to display.

Just what they'll be worth to employers who pay.

So don't grow too proud for the work that's required.

If it wasn't worth while you would never be hired.

## What Noted People Say

(International News Service)

NEW YORK, Lord Marley, visiting Englishman, approves of King Edward's romance. "The simple truth is that we in England are sick and tired of these anaemic, spotty princesses from the continent. We would much rather have an American woman as queen."

SALT LAKE CITY—Fay Newman, America's "ideal secretary," says charm is fully as important as shorthand and typing in secretarial posts. "And by charm I mean ability, adaptability and a sense of humor."

NEW YORK—The Rev. Leonard Peeny, S.J., pleads for better manners. "Good manners are dying out in the world today. Children are trained in the psychology of animals, marriages are made without suitable courtships, the sick and incurable are looked upon as economic nuisances; the gentle ways of the spirit are not developed."

## Fastest Planes Being Built For Uncle Sam

By JAMES L. KILGALLAN  
International News Service Staff  
Correspondent

NEW YORK, Dec. 8.—Major Alexander P. De Seversky revealed today he is building the world's fastest military airplanes for the United States government. His enlarged factory at Farmingdale, Long Island, is now "in production" for 35 pursuit planes which he considers "the speediest combat planes ever built."

"The performance of these planes is confidential and the details cannot be divulged," Major De Seversky told International News Service.

He said the Seversky Aircraft corporation, of which he is president, has just delivered 35 training planes to the government. They are to be used for training purposes at Randolph field in Texas.

Major De Seversky holds the world's maximum speed record for amphibians which he established at Detroit, Mich., September 15, 1935, when he flew a Seversky amphibian at a speed of 230 miles an hour.

"Improvements are being made on this type of plane and I am convinced the speed of amphibians can be stepped up to 250 miles an hour," he declared. "This is extraordinary for amphibians."

Major De Seversky said the order he has received for ultra-modern pursuit planes "shows that the United States war department is keeping pace with the world armament race."

"While I think the quality of our

airplanes is excellent, and second to none, the quantity is absolutely inadequate and meager in comparison with other nations," said Major De Seversky.

The United States has about 1,700 planes, he estimated, compared to an estimated total of 5,000 for Russia, 4,000 for Italy, 2,800 for France and 2,000 for England.

"One thing is sure—the center of gravity of national defense has moved into the air," Major De Seversky said. "In considering preparedness our attention should be concentrated on airplanes. The value of the airplane in warfare is recognized by every nation in the world."

"There has been some criticism that the American military airplanes are not far enough in advance of foreign nations. If one takes into consideration the fact that the performance of planes in this country is obtained with a great deal less horsepower one can realize the aerodynamic superiority of our aviation."

"What is going to happen is that in an emergency we are going to step up our engines. The facts then will speak for themselves."

Many foreign planes are built for "flash" performance and haven't the stamina and durability of the American airplanes, in the major's opinion.

Major De Seversky is a noted inventor and designer of planes. He was born in Russia 42 years ago and is a naturalized American. He was one of Russia's heroes in the World war. In 1917 he was chief of Russia's entire pursuit aviation in the Baltic sea area. He personally is credited with 13 enemy planes. During a bombing expedition in the gulf of Riga his plane was shot down, his observer killed and he lost his right leg.

## Fourth Annual Birthday Ball On January 30

Event Will Be Staged As Benefit For Infantile Paralysis Sufferers

(International News Service)  
NEW YORK, Dec. 7.—President Roosevelt's fifty-fifth birthday—next January 30—will be the occasion of the fourth annual "birthday ball for the president," the proceeds of which go to benefit sufferers of infantile paralysis.

The president again has agreed to lend his birthday for this entertainment and cause, Colonel Henry L. Doherty, national chairman of the birthday ball for the president, announced.

Mr. Roosevelt, the trustees of the Warm Springs (Ga.) foundation, and Colonel Doherty have completed arrangements for the ball. In correspondence between them, the president said:

"My own views are that the national fight against infantile paralysis cannot cease. It must go on. The recommendations of the trustees have my complete and hearty approval."

Seventy per cent of the funds raised by each birthday ball remain in the community for the treatment of infantile paralysis. Thirty per cent of the amount raised by each local dance ball is to be sent to the national committee. They in turn give it to the president for presentation to the Warm Springs foundation for the continuance of the fight against infantile paralysis.

## Assemble Evidence In Robles Case To Give To Grand Jury

(International News Service)

TUCSON, Ariz., Dec. 8.—It will require about four days to place all the evidence in the sensational June Robles kidnapping case before the grand jury, U. S. Attorney Frank E. Flynn announced Monday as the jurors began to assemble. "The grand jury will be given the whole thing, every phase from the first investigation," said Flynn, who indicated the long awaited denouncement will completely clear up what has been regarded as "America's No. 1 unsolved kidnapping."

From sources close to the investigation it was reported that four prominent persons would be linked with the case, particularly on evidence of using the mails to extort money.

Little June, who was found in a pit on the desert 19 days after she disappeared and ransom had been demanded for her return, has been of considerable help to the authorities, Flynn said, in clearing up the crime, now more than two years old.

## See Settlement Of Pacific Coast Strike Shortly

(International News Service)

SAN FRANCISCO, Dec. 8.—Peace on the west coast waterfront before Christmas was freely predicted today by close observers of the 39-day strike of 37,000 maritime workers.

Harry Lundberg, spokesman and leader of the Sailors' Union of the Pacific, said he looked for substantial progress during scheduled negotiations this week "and a complete settlement before Christmas."

Assistant Secretary of Labor Edward F. McGrady who has been acting as a mediator likewise was cheered by developments during the week-end.

The act trouble shooter of the government did not reveal what went on behind the scenes during the week-end but he declared that hopes for settlement of the strike were "bright."

Lundberg set forth the demands of his union on the most disputed point of the strike—the hiring hall question.

## Teacher Kills Deer In Woods During Recess

(International News Service)

LOCK HAVEN, Pa., Dec. 8.—Recess, it was shown today, isn't just a time for the students to play. While his pupils romped in the school yard, Robert Emery, a teacher in the Grove Township school, near here, took his gun into the woods at the rear of the building and killed a deer.

Last year, the nimrod-teacher had the same luck. Then he killed a doe near the same spot.

Mrs. Robinson began her collection with eight pitchers, wedding gifts of 49 years ago. Today she has a total of 4,583 rare pieces, the smallest of which is one-eighth of

Her most prized possession is a pitcher with the holy apostles standing in bas relief on each side. Other rarities include pitchers in the form of birds, animals, a Chinese woman, and one depicting an Indian smoking a pipe.

## HOW TO RELIEVE ITCHING PILES

If you are annoyed with itching piles or rectal soreness, do not neglect the same or run the risk of an operation. Any itching, soreness or painful passage of stool is nature's warning and treatment should be secured at once. For this purpose get from your druggist a little Ice-Mint and apply once or twice daily. This cooling and soothing preparation quickly relieves the itching and soreness, stops pain and aids in healing the effected parts. Try it. Ice-mint is highly recommended and is easy and pleasant to use. It seems the height of folly for anyone to risk an operation when a simple remedy that is so easy to use may be had at such small cost.

### QUEEN ESTHERS HOLD UNIQUE YULE PARTY

The social rooms of the Third U. P. church were cleverly transformed into a miniature snow covered village Monday evening for the annual Christmas party of the Queen Esther class, taught by Mrs. Bernard Hook. Over 50 were in attendance, including two special guests, Mrs. David Brown and Mrs. Jessie Hopper.

Hostesses for the occasion were Mrs. John Kenehan, Mrs. Edward O'Neil, Mrs. David Jones and Pearl Colnot. Mrs. Bernard Hook was in charge of the devotional period and Mrs. Chester T. R. Yeates led in prayer while the scripture was read by Betty Gray. A Yuletide solo was contributed by Mrs. Edward O'Neil with Marietta Daugherty accompanist. A short business session ensued, with Mrs. John Kenehan in charge.

A program of entertainment impressively set off in this picturesque background, was given in charge of a committee of three, Mrs. Morris Hook, Mrs. Robert Gibson and Mrs. Thomas Baskerville. They had for the first number a pantomime, "The Old Rugged Cross," portrayed by Sal Renneck and Mrs. Lloyd Wimer with Marietta Daugherty accompanist. A reading followed by Jean Gibson and a play entitled "She Gave a Pumpkin Pie" was enacted by six members. They were Mabel Kocher, Reba Sines, Mrs. Lloyd Wimer, Mrs. Emerson Flansburg, Mrs. Chester Yeates and Mrs. Allan McKissick.

The entertainment was climaxed when an original white sleigh was drawn into the spacious room, carrying old St. Nick (in the person of Mrs. Morris Hook) fittingly attired. Santa Claus presented Mrs. Bernard Hook with a handsome gift in behalf of the class, and not wishing to slight anyone, the old fellow distributed individual gifts to all surrounding him.

When lunch time arrived, the assembly was again thronged with the attractively appointed tables which further suggested the Yule season. The hostesses served a delicious menu, and miniature pine trees marked each place as favors.

The January meeting will be in charge of the following group: Dorothy Kay, Juliana Mackey, Mollie Livingston, Mrs. Edward McCliverson. The place and date will be decided.

## Prison Break At Columbus Nipped In Bud

(International News Service)  
COLUMBUS, O., Dec. 8.—Three escape attempt nipped in the bud by a loyal prisoner and an alert guard, six of the most desperate convicts in Ohio penitentiary here sat in solitary confinement today while Warden James C. Woodard pressed an investigation into their acquisition of bolt-cutters, prison-made knives and dummy guns.

Three of the men were serving life terms for murder, and in their escape try they at one time had half of the inmates of the dangerous "idle" cell block free of their cells.

Rushing two guards as they fled back to their cells after a meal, the convicts locked the guards in cells and scaled ventilator controls to a window high above the floor of their cell block. Here they attempted to cut through a heavy wire screen with bolt-cutters, and were seen by an outside guard, who fired his gun, and the loyal prisoner, who set fire to his pillow to attract attention.

Surrounded by guards, the men surrendered without resistance. They were: Charles Menges, and Joseph Filkowski, both serving life for first-degree murder; Leroy Keith, twice sentenced to the electric chair, but retried and serving life for second-degree murder; Clyde Stapp, and Frank Benzowski, both serving 10 to 25 years for robbery, and Morris O'Flaherty, serving 10 to 15 years for robbery.

uninformed on world affairs, and his closest allies shield him from outside contacts to avoid the fact becoming known. He sulks and whines and has never been outside of Germany and Austria except last year when he visited Mussolini incidentally. It is stated that Mussolini despises him just as any rugged lad holds a sissy in contempt.

Mussolini, on the other hand, is an inveterate student. While he rose to fame and eminence through his blackshirt fighters, he is proud of his accomplishments, and is out to make the power and influence of Italy felt in world affairs. His tactics are those of the regular dictator, ruling with vengeance, but evincing the conviction that he is the only way. His principal difference from other dictators is that he is said to have adopted the religion of his country and is credited with having and accepting the blessings of the Pope.

Mussolini speaks several languages including French and German and is now acquainting himself with English for the reason, it is said, that he wants to read what the English and American newspapers have to say about him.

His idols are Julius Caesar and Napoleon Bonaparte, whose pictures adorn the walls of his head-

quarters in Rome. His ambition is the rebuilding of the Roman Empire.

With these strange rulers dominating the lives of a large percentage of the population of the civilized world, it is not surprising that their influence is felt among Americans, many of whom sprung from the blood of those races.

It is vitally important, therefore, with the peace and well being of civilization at the mercy and whim of three or four men who are a little less than ordinary mortals and each one of them is a peculiar neurotic character, that America and Americans should stand guard against the possible loss of their liberties and freedom while these political mad dogs are at large.

As Victoria and Albert's grandson, ex-kaiser Wilhelm is non-Aryan according to Nazi definition, and this is the reason there is no chance of a Hohenzollern restoration while Nazism prevails.

Jewish royalty is no phenomenon in modern Europe. The present Swedish royal family was founded

by Jules Bernadotte, Jewish banker and one of Napoleon's generals became King Charles XIV of Sweden, and Elsa, present princess-regnant of Liechtenstein, is a full-blooded Jewess, as is the Maharani of Sarapur, consort of one of the ruling princes of India.

It's True—Britain's present ruler, Edward VIII, is of Jewish descent. Queen Victoria's husband was Jewish.

Anne Hibbins, sister of Richard Dellingham, colonial governor of Massachusetts who died 264 years ago today, was executed as a witch while he was governor!

## Safety In Steel Planned In 1937

Greater safety through the coming year will be stressed by all plants of the Carnegie-Illinois Steel Corporation, it was announced today by Ross M. Loeffler, manager of industrial operations for the Pittsburgh, Youngstown, Johnstown district.

The plants of the corporation have always stressed safety but in the coming year it is planned to eliminate so far as it is humanly possible, all lost time accidents. "Steel Can Be Made Without Accidents" is the slogan for the year and every employee is being urged

to do his part towards a 100 per cent record for his plant.

The employees of the Shenango Works and the New Castle Works are a part of the plan and will carry on an even more vigorous campaign than has always been carried on.

Maybe the central government isn't dangerously powerful. You saw how easily it was scared by longshoremen.

not yet governed by them and need hardly change our king to suit their temper or because he marries an American.

Japan's seventy millions and fighting machinery so close should be very careful about weakening the British empire.

PAPERS IN THE Irish Free State denounce the proposed marriage of the king, supposedly because of the strong Catholic opposition to divorce. Nevertheless, "The Tablet," one of London's most important Roman Catholic weeklies, declares that laws "extending the right of divorce and remarriage to other Protestants, should extend to the king."

SOME IN ENGLAND believe that Baldwin and others oppose the king on grounds largely political, disliking his habit of visiting city slums and miserable half-starved coal miners and expressing sympathy for them.

Such talk by the monarch seems like "meddling in government," and might stir up "the dregs" to whom recent British governments have paid little attention.

MR. HULL, secretary of state, offers "eight pillars of peace" upon which American "peace and prosperity might rest."

With all respect for the secretary's earnestness, it must be said that the most important "pillar" for the United States is not found among the eight.

The interesting pillar is: "A protective force of air-planes and submarines so great as to make any attack upon this country unthinkable."

When John L. Sullivan lived, no one hit him.

MR. HULL'S SUGGESTION of "frequent international conferences is admirable as regards conferences among nations on the American continents. Outside of America, the fewer "conferences" the better, remembering Will Rogers' statement that Uncle Sam never lost a war, or won a conference.

## Rotary Work Reviewed At Club's Session Monday

Work among crippled children of the district, the major activity of Rotary here, received considerable attention in the discussion that marked the Rotary club's weekly meeting at The Castleton on Monday. It was Rotary's regular monthly business session.

The crippled children's work was reviewed by Chairman Emanuel Shenkan of the crippled children's committee. Future activity along the relief line was considered.

**Newcomer Is Welcomed**  
A new Rotarian, or rather a new Rotarian so far as New Castle is concerned, was obligated yesterday as a member here by William K. Hues of Rotary's education committee. Dr. David L. Rosenthal, formerly a Brownsville Rotarian, is the new member.

Announcing once more the far-famed "buckwheat rodeo" of the New Wilmington Rotarians at New Wilmington on Thursday evening, December 10, J. Lee McFate, boosting the affair among the local clubmen, said "more than 50 or 60 New Castle Rotarians will probably attend."

The annual buckwheat cake and sausage feast draws Rotary delegations from clubs throughout the 33rd district.

In a formal resolution presented by Louis B. Round, the Rotarians extended to David S. Pyle, general chairman of the recent Community Chest campaign its "commendation for the fine handling of the drive and for the success achieved therein." Pyle led the community host in their drive to obtain funds for the support of eight welfare and charitable agencies.

**Resolution Lauds Pyle**  
The resolution passed with a roar of approval, after Fred L. Rentz, speaking as chairman of the club's civic activities committee, had voiced praise for Mr. Pyle's fine community spirit and his able campaign leadership.

Mr. Rentz also asked the Rotarians to attend, if possible, dedica-

tory ceremonies at the new Edinburg viaduct on Saturday, December 12. As chairman of the reception committee for the dedication service, Mr. Rentz recalled that many Rotarians had interested themselves in the viaduct project many years ago.

President Ray S. Tannehill presided yesterday and, through his club service and community service lieutenants, called upon the various committee chairmen. Jacob F. Rentz heads the community service group of committee and Walter W. Duff the club service group.

Two future club affairs, a Ladies' Night Christmas party on the night of Monday, December 28, and a joint dinner of the Rotarians and their own Boy Scout troop at Ben Franklin junior high school on February 8, 1937, during the annual National Boys' Week, were announced.

A senior high school student, Samuel Saifer, in a short talk before the business meeting, urged Rotary's support of the current Christmas seal campaign.

### No Preference In Relief Jobs

(International News Service)

WASHINGTON, Dec. 8.—The supreme court Monday blasted a drive to enforce veterans preference in handing out federal relief jobs when it denied the petition of Benjamin J. Spang for review of a third circuit court decision, holding that he is not entitled to preference.

The case attracted wide attention when Spang first won a ruling from Federal District Judge George A. Welsh in Philadelphia, holding that veterans must be preferred for relief jobs.

## On Court House Hill

Mrs. Dorothy Smith, who has been employed as a clerk in the prothonotary's office, has resigned to accept a position with the New Castle Water Company. Miss Marion Truby of Leisure avenue, has been employed to take Mrs. Smith's place at the prothonotary's office. Mrs. Smith was formerly with the Water Company.

Under the will of the late Arney W. Smith of Union township, which has been admitted to probate in the register and recorder's office, decedent's home is left to his wife, Rosetta Biddle for life. At her death it is to be sold and the proceeds equally divided among the children. John S. Biddle is named as executor.

There's a story behind the reason why a waitress in Pennsylvania eating houses must today pour milk cut of a bottle in front of a customer. It seems that a member of the senate one day insisted that a waitress bring his milk to him in a bottle where he could do his own "pouring." The waitress refused to do so. "Orders is orders," said she. The senator didn't like that, stalked back to the senate chamber and introduced a bill making it mandatory that a waitress pour milk from a bottle in front of the customer. The bill passed.

Sixty instruments of all kinds were entered at the register and recorder's office last week. Of this number twenty four were deeds and 12 were mortgages. Five of the mortgages were given to building and loans, four to banks and three to individuals. Records of late show that there is an increasing number of mortgages to banks and building and loans, compared to the number of individuals.

The count has granted a charter to the Pleasant Hill Grange of Perry Twp. This grange has been in existence for some years, but as an unincorporated body. Assets consist of one-fourth acre of land and a grange hall in Perry township. Directors are C. S. Weisz, of Fomell, P. D. 1, Arthur F. Hazen, of Ellwood City and Henry G. Fox, of Ellwood R. D. 7.

Thirty-five properties were disposed of under the hammer by Sheriff Edward D. Pritchard, at the court house Monday. There were few bidders present except those interested in the executions and practically all of the properties were bought in by the holders of the mortgages.

## GUARANTEED RELIEF FROM CONSTIPATION

Common constipation is usually due to meals low in "bulk." Pills and drugs give only temporary relief. The sensible thing to do is to put "bulk" back into your meals.

Millions of people get this needed "bulk" in a delicious cereal: Kellogg's ALL-BRAN. Its "bulk" is much like that in leafy vegetables. Within the body, it absorbs moisture, forms a soft mass, gently cleanses the system.

Some years ago, an investigation was made among thousands of ALL-BRAN users. 98 per cent found it satisfactory. Only 2 per cent had the type of constipation that would not respond to ALL-BRAN.

ALL-BRAN is guaranteed. Try it a week. If not satisfactory, your money will be refunded by the Kellogg Company. Just eat two tablespoonfuls daily, either as cereal or in cooked dishes. ALL-BRAN is sold by all grocers. Made by Kellogg in Battle Creek.

## Plan To Eliminate Straight Party Vote

By RICHARD A. BLACKBURN  
International News Service Staff  
Correspondent

COLUMBUS, O. — Another of many movements has been started to eliminate straight ticket voting in general elections by substitution of the Massachusetts ballot for the kind now in use in Ohio.

Three Cleveland lawyers, Kingsley A. Taft, Leo M. Asscherman and Paul W. Walter, all defeated candidates for the Ohio general assembly, initiated the plan to secure a constitutional amendment which would make election officials list candidates in office columns rather than in party columns under a party emblem.

The form of the petitions now being circulated among voters and the summary of the purpose of the amendment already has been approved by Attorney General John W. Bricker. It remains for the sponsors to secure slightly more than 300,000 valid signatures to place the issue before the electorate at the next general election.

The sponsors of the plan claim that their own defeat can be attributed to the voters' inclination to mark a "straight ticket" for all candidates of one party rather than to discriminate among candidates on the basis of merit. Support has been given them in their campaign, they say, by many prominent Republican and Democratic party members.

A tentative plan to initiate a law instead of a constitutional amendment was discarded through fear that partisan legislators and occupants of the governor's office would make every effort to repeal such a statute.

Elected by Roosevelt

A statement by a committee of leaders in the movement said:

"We wish to avoid the possibility of a repeal by the governor and members of the legislature who undoubtedly owe their election to the straight ticket voting. Scores of voting candidates were elected to office solely on the popularity of President Roosevelt."

This argument has been advanced innumerable times by enemies of strongly entrenched party power.

### To Women who suffer from Piles

It is no longer necessary for you to suffer the agony caused by piles. Science has at last developed a new modern treatment that gives immediate relief from the soreness, itching, burning and bleeding.

IRIL Suppositories were first used by doctors who specialize in rectal disorders. They have a five-way action that makes them the ideal treatment for the quick relief of the horrible discomforts. They stop all pain within a few seconds; they check bleeding quickly; they promote healing of broken tissues and fissures; they soften and lubricate making bowel movement easy and painless. Containing no narcotics or harmful drugs, they are safe for home use.

IRIL is also made in the form of an ointment to relieve the itching, burning and bleeding of external or protruding piles.

IRIL Suppositories come in two sizes—6 treatments for 50 cents and 12 treatments \$1.00 per box. IRIL Ointment comes in a 50¢ tube. IRIL Suppositories and IRIL Ointment are sold by all druggists.

## AROUND CITY HALL

A representative from the Federal Housing bureau appeared before city council at their meeting in the municipal building and requested use of the city assessment books, from which they may collect information to stimulate building. The attaché said information relative to vacant lots is desired. Owners will receive a letter which the representative said will urge building.

And now that the appropriation bill for the city expenditures of 1937, has been introduced and posted, it is the legal privilege of any citizen to inspect the measure. It is on the bulletin board at the city clerk's office. No doubt many will take advantage of the privilege. The amounts required total \$544,915.00, which will permit the city to retain its present tax millage rate, it is expected.

Various efforts have been made to solve the parking problem here. A former council built a municipal free parking lot. Later officers scurried here and there placing tags on cars parked in wrong sections or over-time. In some streets parking on both sides helped to slow traffic. Not long ago Park-o-meter representatives called on council and discussed installation here. No decision was made. The Park-o-meter was again discussed Monday.

On numerous occasions persons having the same name as some police prisoner have asked that they be identified publicly from the prisoner. It is likely that the persons in charge of police will have arresting officers secure address of each prisoner and placed alongside the prisoner's name on the official docket. Through such a method innocent persons will escape embarrassment.

With paving projects in the city abandoned for the year a resumption of the work may be urged in 1937, petitions for paving having been presented by property-owners from various thoroughfares. The southside also would like to see the Big Run flood menace chased. Repairs after the last flood cost the city several thousand dollars. WPA projects cost the city \$51,000 in 1936.

Twenty four thousand dollars is the amount appropriated by the public free library, the estimate being arrived from one half mill tax on a \$49,000,000, assessed valuation. Six thousand three hundred and twenty dollars has been set aside for the golf course and \$10,072 for Cascade park. Two thousand two hundred and eighty dollars has been set aside as the city's share of monies to pay police pensions, effective next year.

Request of South New Castle borough councilman, Daniel Cornay, that facts be given the borough concerning sewer connections recalled during council that the city refused permission to connect proposed Neshaunock township sewers to the city. Some years ago there was agitation for Union township connections and the city then and now maintained the city's sewer system would be over-loaded.

George Patterson, assistant to A. C. Shoen, chief assessor for the city, will leave the city's service next month, it was stated in city hall. He has been employed about eight months. Usually during the triennial assessment period two assessors are employed. Third ward hearings are yet to be held and after all revisions, if any, are made, Mr. Patterson's services will be relinquished.

## WASHINGTON AT A GLANCE

### Reducing WPA Causes Outcry

Lack Of Legislative Lung-power At Capital Prevents Furore From Growing

STATES TRYING TO KEEP CLEAR

Central Press  
Washington Bureau  
602 Times-Herald Bldg.  
By CHARLES P. STEWART  
Central Press Columnist.

WASHINGTON, Dec. 8.—Washington has not yet begun to feel the full reaction from the federal government's campaign to reduce emergency relief expenditures.

It has not begun to do so because congress is not in session.

From out in the "sticks" come advice that a terrific outcry is developing, with the cutting down of personnel in local areas. It has not gained much volume in the capital, however, due to lack of legislative lungpower on the "hill". I doubt that the administration will realize its proportions until lawmakers begin to arrive in considerable numbers, bringing news from their various constituencies of home folk.

#### WPA'S STAYING POWER

No administration ever does realize, when, with a friendly congress' sanction, it creates a supposedly temporary board or commission for some especial purpose, that such a board or commission, in reality, is being created in perpetuity.

The assumption is that the body will be abolished as soon as the need for it has passed—but the need never does pass, apparently.

This rule holds good even of little set-ups, with small office forces respectively. Somehow each one of them subsequently proves to have

influence to hang on forever.

How much more binding must the same rule necessarily apply to

a perfectly enormous organization like WPA, with a staff of its own and a list of beneficiaries numbering up into the millions!—and with corresponding voting power!

#### LIQUIDATION OBJECTED TO

A querist asks:  
"What's at the bottom of the furore against the progressive liquidation of WPA?—not to mention the liquidation of other huge emergency relief organizations?"  
The answer is that they don't propose to be liquidated.

It is a joke (if not a very funny one) that the central government plans to create a commission to do the liquidating.

A NEW commission—because already there are too many.

WPA, for example, has GOT to reduce expenses.

It has not money enough, unless the incoming congress grants it a great deal more cash than seems probable, to keep it going at its present rate of expenditures.

Individual lawmakers insist that enough money MUST be appropriated to keep the system going, each in his own bailiwick, but they all demand economy in general.

DOESN'T WORK

It's the old story.

Forty-eight individuals (states, that is to say), with 50 cents each, can't raise more than \$24 to relieve their joint distress.

Therefore, acting jointly, they aim to raise what they need—\$48.

The administration is trying to get back to this basis—local responsibility.

Local responsibility naturally doesn't like it.

Local responsibility's thought is to get back to a 10-cent basis for itself, with a correspondingly higher percentage basis for each other locality—its own locality to benefit by the difference, on an average.

WHAT IS ANSWER?

Creating these emergency organizations was comparatively simple.

Breaking them up is a problem—well-nigh insoluble.

I don't like to be asked:  
"What's the answer to 'em?"

POTTER TO HAVE

IN QUEST TONIGHT

### Plan To Revive Grave-Robbing Case In Court

Former Altoona Insurance Agent Will Stand Trial For Robbing Of Grave

(International News Service)

BEDFORD, Pa., Dec. 8.—The grave-robbing conspiracy case which shocked Blair County several years ago was scheduled for revival this week with the announcement today that one of the convicted men will go on trial by his own petition in the Bedford County court Thursday to dispose of an unsettled charge.

Ross A. Barclay, former Altoona insurance agent who is now serving a 10 to 20 year prison term on charges of defrauding an insurance company, will be tried on accusations of robbing a grave.

Barclay, together with Bert Fetter of Hollidaysburg, alleged by police to have been the ring-leaders in an insurance conspiracy plot, was convicted and sentenced by Judge Marion D. Patterson in the Blair County court at Hollidaysburg three years ago.

Pardon Blocked

Barclay's first efforts to obtain a pardon were blocked by the unsettled grave-robbing charge and in the hope of securing an acquittal and open the door to pardon board action, he will face trial again.

The case broke into the spotlight when state police, investigating the burning of a shanty in the woods near Altoona, found the body of a man thought to have been Fetter, whose wife held a \$10,000 insurance policy on his life. A mortician's report revealing the body had been embalmed before death led to Mrs. Fetter's arrest and confession. Fetter later was arrested in Youngstown, O.

Would Purchase

"Wally's Home For Exhibition

(International News Service)

BALTIMORE, Dec. 8.—Technically, by next summer, the former home of Mrs. Wallis Simpson may no longer be in Baltimore.

Bert Nevins, New York amusement entrepreneur, contemplates—depending on the outcome of England's constitutional crisis—purchasing the Simpson home at 212 East Biddle street, and moving it to an amusement park, across the Hudson river from New York, in time to open it for exhibition next summer.

Nevins figures the value of the house for exhibition purposes—if King Edward and Mrs. Simpson wed—at two to five times its present value. He said the house, if purchased, probably would be moved to New York in sections on barges floated down Chesapeake Bay and the Chesapeake and Delaware Canal to the Hudson river.

Deny Petitions

In Test Of Act

(International News Service)

WASHINGTON, Dec. 8.—The supreme court today denied petitions seeking to test constitutionality of the Roosevelt administration commodity exchange act June 15, 1936.

The petitions were filed by Chicago commission firms and individuals, after they had failed to win injunctions against enforcement of the act in district courts.

The commission men appealed to circuit courts but sought to "jump" them and obtain a review by the high court without awaiting the intermediate court's decision.

The high court's action in denying review may have been based solely upon a refusal to permit "jumping" the circuit courts.

Four Arrested

(International News Service)

BALTIMORE, Dec. 8.—Four men were arrested and narcotics valued at \$10,000 were seized here Monday by federal agents and Baltimore detectives in a series of raids designed to stop the flow of narcotic into race tracks and smash the operation of a New York dope gang.

## THE PARENT PROBLEM

By Garry C. Myers, Ph. D.

### STUTTERING CHILDREN

FORTUNATE the stuttering child whose teacher tries to help him in a sympathetic and intelligent fashion. From Oklahoma such a teacher writes:

"I am a rural teacher who reads your column with interest. Not long ago I read your article on the stuttering child. This greatly interested me, as I have a little girl of nine in my school who stutters. . . . Please tell me if anything can be done about the matter."

"I am happy to learn that you are trying to help a stuttering pupil. You will get best results eventually if you will deal with the stuttering directly. Do not interrupt this child or tell her to go more slowly or to repeat after you; act always as if everything were going well. Don't look at her mouth when she stutters; look at her eyes or look elsewhere. Don't hold your breath then; breathe naturally and be relaxed while the child speaks. In the event you know the word the child is trying to say but cannot

not, it might be well, at times, provided she welcomes such help, to give the word quietly and nonchalantly.

### Get Parents To Help

Get into touch with the child's parents and try to prevail on them to treat this child as considerably as you do. Look into the likelihood of jealousy, and try to induce the parents to make this child feel worthy at home, and loved as much as any other member of the family; and to induce them to help this child win more successes with her playmates. To check with their doctor, moreover, with a view to building up the child physically and providing a home atmosphere of calm and poise.

Try to create a homey classroom atmosphere in which no child will need to feel self-conscious as he speaks. Keep your voice quiet and low-pitched.

If you have had speed drills quit using them. Be sure you do not tell any child to hurry if while on his feet he hesitates to give an

answer or volunteer a statement. Have a secret understanding with this stuttering child that she shall recite only when she feels she has the courage to do so. Help her get on with play skills on the playground.

Plan to have her absent when you will take the other children into your confidence about her, and appeal to them to strive to help her feel more comfortable. And see the moral good that they will gain. Expect only gradual results. Be happy if you see improvement in the child's speech after a few weeks or months.

## Kane Church Is Damaged By Fire

(International News Service)

KANE, Pa., Dec. 8.—Fire Monday swept the First Congregational church here, one of the largest in the city, and valued at \$50,000.

Three fire companies responded battling the flames in a temperature of 10 above zero.

The fire was believed to have been caused by charcoal heat being used in the edifice by workmen preparing it for the 50th anniversary celebration next year. The charcoal fire was believed to have ignited a partition, from which the flames spread.

The flames made a spectacular sight as they leaped through the roof and from the sides. The severe cold hampered firemen in their efforts.

# THOUSANDS LOST IN LUZON ISLAND TYPHOON

## Relief Work Is Under Way

Flood Sweeps Northern Part Of Island And Inundates Towns

GREAT NUMBERS OF CITIZENS TRAPPED

(BULLETIN)  
(International News Service)  
MANILA, P. I., Dec. 8.—Thousands of lives are believed to have been lost in the great typhoon and flood which swept northern Luzon Island last week according to fragmentary information reaching here today.

Isabela Province alone, with 18 towns under water since Dec. 4 and thousands of people "carried away" by the raging floods, with other thousands reported missing was in desperate need of relief from the greatest deluge in its history.

The typhoon relief board at an emergency meeting today decided to send Major General Basilio Valdes of the Philippine army and Dr. Eugenio Herrando, director of the bureau of health, in an airplane survey of the disaster area, described as covering virtually all of the northern provinces.

Tens of thousands of Filipinos were reported in desperate need, with all of their food destroyed and the twin spectres of famine and pestilence already stalking through the stricken region.

The commonwealth, its resources already strained by the relief problem of the typhoon and floods several months ago, was loading food upon all available government cutters and privately owned ships.

All land routes into the provinces were reported destroyed, throwing

(the problem of shipping supplies of food and medicine upon water transport.)

**Hordes Trapped**

The Cagayan river, in Isabela province, rose so rapidly during the torrential rains that it was impossible for thousands to escape and they were swept to death, unable to reach high ground.

Debris from the flood, including many bodies, poured into the sea, making it unlikely the exact death toll of the disaster ever would be learned, according to observers.

Only 20 dead have been accounted for, it was announced. Many of the provincial centers of population, however, have been prevented from giving even estimates of the dead and missing because of broken telephone and telegraph lines.

Riverworks systems, including earthen dykes, provincial roads, bridges, crops and Philippine army training camps were badly damaged or destroyed.

A far flung program of relief and reconstruction was organized today by the department of public works as the aerial survey began.

Six hundred thousand pesos was asked for the repair of dykes as a starter and an even larger sum probably will be sought after the work gets under way.

**One Of Smallest Babies Ever Born Has Chance To Live**

(International News Service)  
HARTFORD, Conn., Dec. 8.—One of the smallest children ever born, tiny Mary Ellen Olin, home for the first time Monday, was given an excellent chance to live.

Weighing only one pound, 10 ounces at birth on August 24, the "incubator" baby is now a normal, healthy child, tipping the scales at six pounds, five ounces, according to physicians. She spent the first two months of life in an incubator.

Social leaders frown on Mrs. Simpson. Especially the ones who paid a million for a mere count.

Henry Mayberry Shoots 150 Pound Buck On First Hunting Trip

While hunting in the vicinity of Route 1, Potter county, Henry Mayberry, Jr., East Cameron avenue, was more skillful than his father in bagging a buck. Mr. and Mrs. Henry Mayberry and son, Henry, Jr., returned home yesterday after spending several days in Potter county in search of deer.

Although Henry, Sr., failed to even get a glimpse of a deer, his son brought down his 6-point buck Friday morning at 9 o'clock. He was very proud of the game, is having the head stuffed and mounted to use in his home as a hat rack, which is the usual end which comes to the unlucky deer that get in the way of the hunter's bullets.

This was Henry's first season at deer hunting, but he is quite a good shot with the rifle because both he and his father practice regularly with targets.

## Social Security Law Is Upheld In First Test Case

Federal Court Judge In Boston Declares Act Is Constitutional

(International News Service)  
BOSTON, Dec. 8.—In its first direct test, the social security act was declared constitutional by Federal Judge George C. Sweeney, Monday.

Making its decision in open court, Judge Sweeney found the act: A valid exercise. It does not exceed the powers of congress. It is for the general welfare. Therefore, it is constitutional.

The decision was made in connection with a petition filed by George P. Davis, stockholder of the Boston & Maine Railroad, seeking to enjoin the road from paying out money to the S. S. A.

Judge Sweeney denied the injunction and dismissed the petition.

Counsel for Davis may take the case direct to the United States supreme court for a final decision next January.

The case was defended by the government, after the railroad had professed disinterest.

**Students Plan For Tea Dances**

First Event At Westminster Is Scheduled For Friday, December 11

(Special To The News)  
NEW WILMINGTON, Dec. 8.—Under the sponsorship of Sphinx, senior men's honorary fraternity at Westminster college, afternoon tea-dances will be installed as one of the side-lines of extra-curricular activities on the campus. The first dance is scheduled for Friday afternoon, December 11, from 3 until 5:30 o'clock in the Theta Upsilon Omega fraternity house.

According to Robert Grier, Sphinx president, the dances if successful will be held semi-monthly on Friday afternoons. The purpose of the dances is to give non-fraternity members on the campus a chance to absorb "fraternity-house atmosphere and become better acquainted with fraternity men, and also to create a better spirit among fraternity men.

"Tag dances" will be encouraged so that one girl will not be monopolized by a single man for too long a period of time.

Cynics on the campus are already conjecturing with an imaginary situation which will find 40 or 50 men waiting to dance with 40 or 50 women who won't be at the dance because they weren't asked to come and because they have to pay "dutch treat" to attend.

**St. Vitus Knights Reorganize Group**

Club Active Again, Elects New Directors Sunday, December 13

The Knights of St. Vitus organization in New Castle is being reorganized.

At their South Side club hall last night a group of 75 members gathered to nominate candidates for their new board of directors, and on Sunday, December 13, at 2:30 p. m., the new board will be elected. Entertainment and refreshments will be provided.

The reorganization move was first discussed at an informal meeting of 50 members of the club last Sunday.

Plans for a gala New Year's party to be held the closing day of the year were laid at the group's meeting. The party is planned as the South Side's biggest event of the year. Two January events are also planned.

Former members of the Knights of St. Vitus club have been invited to join again. Clubrooms have been renovated for the new organization.

Big Business didn't lose the money contributed to Landon's campaign. It would have been given to mere stockholders, anyway.

Maxwell is a member of the male quartet and the college band. He has won two varsity letters in tennis, and has been active in intramural sports for three years. He won letters in cheerleading during his freshman and sophomore years.

At Wilkinsburg high school, Maxwell won three varsity letters in tennis, and was head cheerleader in his senior year, after three years of apprenticeship. He was president of the music club, and was a member of the French and Dramatics clubs.

He is the son of Mr. and Mrs. Ray Maxwell, 434 Rebecca street, Wilkinsburg.

**SOUVENIR HUNTERS CARRY OFF BRIDGE**

(International News Service)  
DOYLESTOWN, Pa., Dec. 8.—Bridges over dry land are an oddity in this country. Bucks county has such a span, but its days are numbered.

Long famous as one of the oldest bridges in the United States, it was removed, at a cost of \$1600 from its original position over the Lehigh Canal a few miles south of New Hope and has since stood, a gaunt spectacle, on the bank of the canal just north of the Thompson house at the upper end of Washington's crossing park.

When built 105 years ago the bridge was covered, but today its roof is gone and other portions have been removed for souvenirs or firewood.

**RELIEF CHISELER GETS TERM IN JAIL**

HOLLIDAYSBURG, Pa., Dec. 8.—Judge Marion D. Patterson ordered George Morgan of Altoona today to return \$1,449 received in federal relief over a period of three years and to serve sentences of 6 to 12 months for false pretense and 4 to 6 months for perjury.

A relief investigator testified Morgan, father of eight children, was placed on relief rolls while unemployed. Later he obtained a job but continued to accept relief.

The investigator declared Morgan earned \$4,529 during the time he also was receiving relief aid.

## Mrs. Cosel Speaks To College Women

Addresses International Relations Group Of University Women

(Special To The News)  
NEW WILMINGTON, Pa., Dec. 8.—Mrs. William L. Cosel, New Castle, Lawrence county representative to the Council for the Cause and Cure of War, spoke to the International Relations study group of the American Association of University Women, New Wilmington branch, Monday afternoon, on the World Court.

Mrs. Cosel, present in Washington at the time of the World Court bill defeat in the senate, declared that the failure of the bill is a definite delay towards world peace. In giving the background of the World Court, Mrs. Cosel traced peace movements from ancient Greek tribunals down to present-day peace conferences. She pointed out that although an American, Andrew Carnegie, had financed the building of the Hague peace palace and America had provided the statue of Justice for the hall, the United States is today a member of neither the World Court nor the League of Nations.

Presidents of the United States for the past 35 years, she said, had favored the World Court, turned down by the senate in 1935. Talk of avoiding "entangling alliances" is foolish, Mrs. Cosel pointed out, since every dollar's worth of trade with Europe and every tourist traveling abroad becomes an "entanglement."

"To substitute law for war is the only way to peace, and to substitute law for war, a World court is necessary," Mrs. Cosel concluded.

The International Relations study group will hold an open forum led by Mrs. Cosel on Monday, December 14, at Westminster college, with Mrs. Joseph Dewey as group chairman.

**HOLIDAY SHOPPERS WARNED TO WATCH OUT FOR ROBBERS**

With Christmas approaching, crowds thronging the business streets and homes left unguarded by busy shoppers, there's danger in the air. The danger is... robbery!

But it can be averted, and to help the situation police have issued a few "don'ts" to Christmas shoppers. Here they are:

DON'T advertise your absence from home by placing a note in the door that you are out.

DON'T place your key under the doormat.

DON'T carry more money than you actually need for shopping purposes.

DON'T carry your handbag by the handle or suspended from one arm, carry it with one hand over the opening.

DON'T place your handbag on a counter while selecting merchandise.

DON'T place your handbag under a coat or chair while shopping.

DON'T place your handbag on a seat beside you in moving picture theatres.

DON'T display your money unnecessarily while in public. Be extra cautious when you are in a crowd, particularly when getting on and off trolleys, cars, elevators, or in other places where there is considerable jostling. When you are jostled make certain your money is safe. Observe closely persons who are making the jostling or block passage-ways.

DON'T leave packages in an unguarded automobile.

DON'T mingle in sidewalk crowds gathered around hawkers of novelties.

DON'T consult strangers. If you desire information as to directions or locations, consult a policeman.

**ROUT THAT COLD**

Let It Not Hang on Thru the Use of Half-way Measures!

Beware of the "common cold"! The "common cold", doctors will tell you, is the cause of more serious trouble than anything else. Many a person who is in a pneumonia jacket today had but a "common cold" yesterday! Neglect no cold. Take no chances with your treatment.

Treat a cold with a cold medicine, not a "cure-all". Treat it also with internal medicine. A cold is an internal infection.

Grove's Laxative Bromo Quinine is what a cold requires. It is, first of all, a cold tablet, made expressly for colds. Secondly, it is internal medication, fourfold in effect.

Here's what it does:

First, it opens the bowels, an advisable step in treating a cold.

Second, it checks the fever in the system, a vital step.

Third, it relieves the headache and fever.

Fourth, it tones the system and helps fortify against further attack.

Bromo Quinine tablets now come sugar-coated as well as plain. The sugar-coated are exactly the same as the regular, except that the tablets are coated with sugar for palatability.

When you feel a cold coming on, trust to no makeshift methods. Adopt the proven course of safety—take Bromo Quinine.

Taken promptly, these tablets will often break up a cold in 24 hours and that's the speed you want.

Bromo Quinine tablets contain nothing harmful and are safe to take. Let them be your first thought in case of a cold.

Ask your druggist firmly for Grove's Laxative Bromo Quinine and accept no substitute.

The few pennies' cost may save you a world of trouble.

## Mrs. Cosel Speaks To College Women

Addresses International Relations Group Of University Women

(Special To The News)  
NEW WILMINGTON, Pa., Dec. 8.—Mrs. William L. Cosel, New Castle, Lawrence county representative to the Council for the Cause and Cure of War, spoke to the International Relations study group of the American Association of University Women, New Wilmington branch, Monday afternoon, on the World Court.

Mrs. Cosel, present in Washington at the time of the World Court bill defeat in the senate, declared that the failure of the bill is a definite delay towards world peace. In giving the background of the World Court, Mrs. Cosel traced peace movements from ancient Greek tribunals down to present-day peace conferences. She pointed out that although an American, Andrew Carnegie, had financed the building of the Hague peace palace and America had provided the statue of Justice for the hall, the United States is today a member of neither the World Court nor the League of Nations.

Presidents of the United States for the past 35 years, she said, had favored the World Court, turned down by the senate in 1935. Talk of avoiding "entangling alliances" is foolish, Mrs. Cosel pointed out, since every dollar's worth of trade with Europe and every tourist traveling abroad becomes an "entanglement."

"To substitute law for war is the only way to peace, and to substitute law for war, a World court is necessary," Mrs. Cosel concluded.

The International Relations study group will hold an open forum led by Mrs. Cosel on Monday, December 14, at Westminster college, with Mrs. Joseph Dewey as group chairman.

The Knights of St. Vitus organization in New Castle is being reorganized.

At their South Side club hall last night a group of 75 members gathered to nominate candidates for their new board of directors, and on Sunday, December 13, at 2:30 p. m., the new board will be elected. Entertainment and refreshments will be provided.

The reorganization move was first discussed at an informal meeting of 50 members of the club last Sunday.

Plans for a gala New Year's party to be held the closing day of the year were laid at the group's meeting. The party is planned as the South Side's biggest event of the year. Two January events are also planned.

Former members of the Knights of St. Vitus club have been invited to join again. Clubrooms have been renovated for the new organization.

Police Sweep Down On "Numbers Pool," Arrest Four Store Proprietors

(International News Service) PITTSBURGH, Dec. 8.—Arrest of eleven men—seven alleged "numbers pool" operators and four store proprietors charged with aiding in the operation of a lottery—today dealt what police believed was a serious blow to the Pittsburgh "numbers" racket.

All were rounded up in the Oakland section of the city in police raids which climaxed an unheralded drive against city gamblers.

Those charged with active direction of the lottery all posted bonds of \$2,500 each pending hearings in court. The four store-owners were held in lieu of like bail.

appeared for her in her recent divorce action at Ipswich, and two of his aides.

They were Dr. Douglas Kirkwood, close friend and medical assistant of Goddard, and a Mr. Baron, described as his "chief litigation clerk."

**Plane Under Guard**

The plane, a five-seated passenger craft, made brief stops under heavy guard at Le Bourget and Lyons and then continued on toward Marseilles. Preparations were made to meet it at an airport near Cannes, where Mrs. Simpson is staying at the Villa of Mr. and Mrs. Herman L. Rogers, New York friends.

The press association, in expressing its firm conviction the crisis would resolve into some sort of climax within 24 hours, said:

"Premier Baldwin's realization that prolongation of the present suspense may have gravest consequences is fully shared by members of parliament, who feel there are many reasons why a settlement may come shortly."

"The havoc which is being caused in some financial circles is one of these reasons."

Failure of the government to make any new declaration in the house came as a surprise.

**Baldwin Not Present**

Baldwin himself did not appear, but Sir John Simon, home secretary, deputized for him, and in answer to a question by Clement Attlee, laborite leader, said his "right honorable friend" had no further statement to make at the moment.

He said he did not know when any new statement might be made.

In connection with the mystery flight to Cannes and the visit by Baldwin and Monckton to Belvedere, it was ascertained that Mrs. Simpson's gallant statement, hailed on many sides throughout the empire as a possible solution to the crisis, came as a surprise to King Edward.

She had acquainted him by telephone from Cannes on her desire to make a statement, but he asked her not to, it was learned, and her action in announcing a short while later her willingness to withdraw, if this would solve the problem, came to him as a shock.

**On Mystery Trip**

London, Dec. 8.—Bound on a mysterious mission, Mrs. Wallis Warfield Simpson's attorneys left for the south of France aboard a specially chartered airplane today.

Aboard was Theodore Goddard, solicitor who appeared for Mrs. Simpson in the trial of her recent divorce action at Ipswich.

The other two passengers in the five-seated biplane were Dr. Douglas Kirkwood, Goddard's personal medical adviser who acts for him in litigation where medical evidence is required, and a Mr. Baron, described as his "chief litigation clerk."

Following identification of the plane's occupants, a report circulated Mrs. Simpson would be asked to sign certain renunciation documents. Another unconfirmed report said the visit was connected with some hitch developing in the proceedings for an absolute divorce decree.

Tonight will mark the beginning of the last week of services in the City Mission by the Allen-Miller evangelistic party.

Great interest was shown last week because of the lively song services, the well planned musical programs, the unique but beautiful instruments, the new and popular choruses and the plain straightforward way the gospel story is told in the sermons.

The meeting tonight will start at 7:30 o'clock. The musical program is named "Songs of the Sea," and such songs as "Drifting," "Sail On," "I Will Pilot Thee," etc. will be used.

Miss Patricia Taylor, of Mahoningtown, will be present to play a selection on her violin. Patricia, just 12 years old, is remarkably true in her tones and has proved her talent before other local audiences.

As a feature in the annual Christmas club project, all girls were asked to bring their dolls to an ingathering of dolls on Monday night, the 21st. These dolls, along with other gifts will be distributed by the Girl Reserves to the children of the Scotia Street Neighborhood House on Thursday, December 24.

The Y. W. C. A. of Slippery Rock State Teachers College has always co-operated in this project and last year about 125 dolls were distributed and many pairs of mittens and hose.

Announcement was made that the mid-winter Girl Reserve conference will be held in New Castle on February 26, 27 and 28. There will be around 200 delegates here from Western Pennsylvania, Eastern Ohio

and West Virginia. Miriam Cline-felter, Peggy Jennings and Lorraine Kilbreath represented the local club at a planning committee for the conference that was held in Pittsburgh at the Central Y. W. C. A. The club voted to have a representative on the Y. W. C. A. public affairs committee and Jean Short was appointed to serve in this capacity.

After announcements, the group adjourned to their various interests including knitting taught by Miss Regina Popp and Mrs. Paul E. Shaffer, dramatics by Miss Eve Nicklin, crafts by Miss Janice Wrathall, bowling, Miss Lillie Brahm, chorus by Enzo Restivo, and basketball by Dorothy Pugh. The program next

## Believe Five French Fliers Lost In Ocean

Jean Mermoz Famous French Airman And Four Companions Overdue In Brazil

(International News Service)  
RIO DE JANEIRO, Dec. 8.—Long overdue at Natal and silent for 24 hours on a mail flight from Dakar, Senegal, Jean Mermoz, French survivor of innumerable aerial escapades, was believed today to have played out his amazing luck and gone to his death with four companions in the South Atlantic.

The five were due here at midnight in the mail plane Croix De Sud, and searching planes reported no trace of them.

In 1930 Mermoz made the first South Atlantic mail flight, and on the return hop eastward was forced down 350 miles at sea. He holds the record of 14 hours for the Africa-Brazil crossing.

Later he was sold as a slave to the sultan of Taroudant when he was forced down in the Sahara desert on payment of \$2,500 ransom.

His flying career started in the World war.

opole, Ellwood City, Butler, Swissvale, New Wilmington and other points will send delegations. ## URGE WORKERS TO TURN IN FORMS

Many Social Security Blanks Still Due; Warn Of Mistakes

New Castle district workers were still lax today in returning those important and now far-famed SS-5 forms of the United States social security board back to the post office.

That became known at the post office as the temporary social security clerical force busied itself with the hundreds of filled-in forms that have been returned and now are being posted to permanent board records.

There still seems, too, to be confusion in answering the 16 questions the SS-5 form asks, postal officials in charge of the special work said here. Spaces each day are reporting at the post office at the invitation of officials, to fill out their forms more correctly.

Mistakes have been uncovered in many of the cards, it was understood. Many of the mistakes, however, were due to the fact that signers have not read special instructions the cards have provided for them.

"Read the instructions on the back of the card," advised the men who are directing the collection of the forms.

The SS-5 forms, reserved for employees alone, were first due on last Saturday. The government extended the deadline over the week-end to December 15.

Postmaster Richard A. Steen declared today that "we hope workers won't delay just because of the extension of the deadline." He said the post office will greatly appreciate full co-operation.

Workers reporting to correct their cards are being cared for by attendants at the window of Superintendent of Mails David B. Thomas' office.

## Cochrane Says No, To Deals In New York City

Refuses To Trade Auker For Whitehead Or York And Laabs For Whitehead

M'KECHNIE MAY PEDDLE BERGER

By PAT ROBINSON  
International News Service Sports Writer

NEW YORK, Dec. 8.—Babe Ruth's back in the baseball spotlight today, with everybody wondering if he'll accept Joe Cambria's offer to manage the Albany club . . . and most of the cognoscenti will wager a few megas Mrs. Ruth wouldn't let Babe accept . . . even if Cambria could offer him enough dough.

Cambria wanted the International league to chip in on Ruth's salary, but the I. L. moguls gave Cambria the berries.

New American league directors will be voted in today. They are Don Barnes of the Browns, Walter Briggs of the Tigers, Connie Mack of the Athletics and Clark Griffith of the Senators.

Goose Goslin's day may be numbered with the Tigers. Mickey Cochrane would like to lure pitcher Buck Newsom from the Senators, and says he won't trade Elden Auker even up for Johnny Whitehead.

Cochrane Says No  
Jimmy Dykes, complete with cigar, would like to swap Whitehead for Rudy York and Chet Laabs. Mickey says no dice—and if Hank Greenberg's arm is okay . . . he'll try York in the outfield.

Casey Stengel has turned down half a dozen jobs. Not enough dough, sez Casey. And why should I worry when the Dodgers have to pay me for my contract?

Saddest home around is Bill (Bees) McKechnie. Sez he's not peddling Wally Berger. But if anybody wants to talk turkey with a good pitcher and a grade A infielder, he's willing to listen.

Connie Mack has a speculative gleam in his eye when he laments Tom Yawkey . . . but Tom and aide-de-camp Eddie Collins are keeping both hands in their pockets. Werber plus cash deal for Pinkey Higgins seems to have fallen through.

Cohen Wants Job  
Al Cohen, ex-Dodger outfielder, is trying to hook on with the White Sox as a pitcher. Won eleven for Toledo last year. Took to the mound as a volunteer when the club was short of men . . . and won four straight.

Dutch Ruether, ex-Yank and ex-Dodger, still out of luck hunting a job. Sez he might as well take up plumbing as accept some of the offers made to him.

## Need Change In Grid Rule

By TOM THORPE  
International News Service Sports Writer

NEW YORK, Dec. 8.—The need for change in the forward pass interference rules is again emphasized as the result of the many penalties inflicted for violations of this important section of the grid code during this season.

Hardly any section of the country that did not witness some infractions of this rule. In almost a majority of cases, dissatisfaction was expressed for the imposition of the extremely damaging penalty.

The whole dissatisfaction with the forward pass interference rule is the rule itself. We can see no reason for discriminating between offensive or defensive violations of this rule. If the attacking side is found guilty of interference on a forward pass it is penalized 15 yards from where the ball was last put in play and an extra down tacked on.

In other words, if the violation comes on second down with eight yards to go, the ball is moved back 15 yards and it is then third down and 23 yards to be gained.

Few complaints are heard from interference taking place five or more yards beyond the line of scrimmage. This is because the penalty for violation in this territory is well taken care of under present conditions. It is on long passes, which go from 30 to 40 yards down the field, the real kicks occur.

Penalty Inequitable  
It does not appear equitable to penalize a defensive team 30 or 40 yards for such an offense, whereas the attacking side calls for 15 yards. That is the crux of the situation.

If the rule-makers will change the penalty to read the same in each case much of the criticism which is now being aimed at impartial officials would not be heard.

Many coaches, too, feel strongly that the defensive player should be furnished more latitude in covering eligible players. They argue that under the present rule the defense faces a stiff mental hazard as well as an extremely severe penalty should it come into contact with an eligible player of the attacking side before the latter touches or is touched by the ball.

They claim this is what causes so many football teams to become jittery when the opposition begins heaving passes, especially if they are fortunate enough to connect with one long gain or score.

Some think the rule committee should place some sort of limit upon the past. They argue that under present conditions the foot has been taken out of football. They would like to see less throwing and more kicking. The last few minutes of most contests give one the impression of a horse-shoe pitching match. The team behind begins throwing the ball about in the hope one of its wild heaves will fall into the arms of an eligible player.

Offers Suggestion  
No one should criticize who has not a constructive suggestion for the correcting of the rule. We are going to offer a suggestion which we feel sure will not only rid the game of much unjust criticism but will return the foot back in football.

First—Make the forward pass interference rule uniform. Violations to be penalized by imposing 15-yard penalties from the spot of the preceding down. In case of the offense being guilty of the violation add an additional down. Violations by the defense ought to be ruled first down after the penalty is imposed.

Second—Violations behind the goal line to the penalized spot of the preceding down, no penalty carrying the ball closer than the 3-yard line.

Third—Bring the inside kick back into the game.

Such changes would eliminate criticism and open up the game. Then coaches would have to develop kickers and not devote all their time in discovering a passer and receiver. Then we would have the foot brought back into football.

Basrak Of Duquesne Bids For All-America  
(International News Service)

PITTSBURGH, Dec. 8.—When the talk turns to potential All-Americans in select football circles, Big Mike Basrak, Duquesne University's towering center, stands out as one of the greatest since Ohio State's Gomer Jones catapulted to national acclaim last year.

Elmer Layden, whose inspired Notre Dame team routed Northwestern in another major upset recently, and who has seen the Duke center and captain perform against big league opposition has said: "Basrak can make any team in the country."

## Minnesota Is Ranked First

Louisiana State Second, And Pitt Third Result Of Mass Of Figures

(International News Service)

CHAMPAIGNE, Ill., Dec. 8.—The rabid Minnesota fans of the north-west don't ask for any substantiation of their claim that the Golden Gophers are the No. 1 football team of the nation, but nevertheless Prof. Frank G. Dickinson, assistant professor of economics at the University of Illinois, emerged from a mass of tables, slide rules and plan and fancy figures and figuring today and arrived at the same conclusion.

Prof. Dickinson's rating entitles the Gophers to the Rockne national intercollegiate memorial football trophy, won last year by Southern Methodist.

Minnesota Ahead.  
Minnesota just nosed out Louisiana State university. Pittsburgh rates third, while Pitt's Rose Bowl opponent, Washington, rates fourth.

Minnesota's intercollegiate victories over Washington and Nebraska, Dickinson explained, were more than enough to offset the loss to Northwestern, while L. S. U.'s rating was hurt by a 6-to-6 tie with Texas, a second division team in the Southwestern conference.

The Dickinson rankings follow:  
Team W. L. T. Pts.  
1—Minnesota 7 1 0 23 77  
2—L. S. U. 9 0 1 22 59  
3—Pitt 7 1 1 22 38  
4—Washington 7 1 1 21 34  
5—Alabama 8 0 1 21 31  
6—Northwestern 7 1 0 20 87

Clyde Milan May Be Signed For Job At Albany  
(International News Service)

CHATTANOOGA, Tenn., Dec. 8.—The Chattanooga Press declared Monday it had learned that Clyde Milan, one-time outfield star for Washington and later a club manager in the Southern Association, will be named to manage the Albany club of the International League next year.

Milan, known as "Old Deerfoot," formerly managed the Birmingham Barons in the Southern, and was pilot for the Chattanooga Lookouts in the same league for a part of last season. Ill health forced him to retire as the Lookouts' manager in mid-season. However, the Free Press reported his health is greatly improved and he will be ready to take over the Albany job.

RECEIVE BLANKS  
(International News Service)

The stakes in question close Monday, Dec. 7, 1936, and stake blanks may be had from Burlen in the Secretary's office.

## Westminster To Open Season On Thursday

(Special To The News)

NEW WILMINGTON, Dec. 8.—Opening the 1938-37 season with West Virginia, the Westminster Titans, now under the coaching of George W. Roark, will get their initial chance to indicate their strength Thursday evening, December 10, on the New Wilmington floor.

Last year's season for the West Virginians was good, even though they ended with a 9 won and 8 lost average. Although Salem's schedule included plenty of tough opposition, they finished among the conference leaders. The Titans after giving Coach Davis' team a severe drubbing in the 1934-35 season on their local floor, lost a one-point decision to the West Virginians in a return game. The two teams failed to meet last season.

Whether the Titans under a new brand of coaching and minus the service of such court stars as "Swede," Hunneke, Wes Bennett Jack Wilkitts, and Paul Backus, can produce the usual successful season or not will probably be answered partially Thursday night. Coach Roark will be without te offensive and defensive strength which brought the 1935-36 Titans a 20 won and 6 lost average for the season. Even last year, Westminster was decidedly handicapped in reserve strength, and scored its victories with the favorite starting five combination of Bennett, Wilkitts, Hunneke, Krivosh and Backus. Krivosh alone remains from last year's scoring machine, built chiefly around the phenomenal basket shooting of Bennett.

Among the possible Titan starters will be Demo, last year's paradox, who was either "hot" or "off" throughout the season in the scoring department; Ken Grubb, letterman and substitute forward, from Youngstown, a fast and aggressive player, but likely to go out on fouls early in the game; Krivosh, Sharon guard, a splendid floorman and excellent on long shots; Susie Gilliland, New Wilmington forward; R. Meyer, Lowellville, a clever ball-handler but somewhat handicapped by height and weight; Mel Miller, New Brighton freshman, who played on Roark's team at New Brighton last year, and Henry Throup, lanky blonde forward from Bessemer, who was the star of last year's intramural season at Westminster.

Others who may see action in the game are McGeech, Rowlands, M. Pawk, Mintz, and Westernman. The game has been set for 8:45, a half hour later than usual starting time, to allow the 300 visiting Rotarians at the Pancake Rodeo to see the contest.

## Sports Review Just At Glance

(International News Service)

Imminent sale of Dizzy Dean topped rumors of several sales and trades as annual meeting of National and American baseball leagues opened.

Ralph Gudahl of St. Louis won Miami-Biltmore \$10,000 open golf championship tourney with 283.

Horton Smith of Chicago finished second with 285 while Gene Sarazen, New York, and Harold McSpaden, Winchester, Mass., tied for third with 286.

New York Yankees defeated Boston Shamrocks, 20 to 13, at Washington in final American football league game of season.

Jockey Sam Palumbo scored second and triple on successive racing days of Shantab, Dixie Bee and Irish Voice at Charlestown, W. Va.

Several Gridders Play In Bowl Game  
Should Walter Raskowski and Charles Fleming play in the coming Pitt-Washington Rose Bowl contest in California, January 1, they will be among the other four former New Castle high football players to take part in the spectacle.

Alex Fox, Dr. P. Sergeant, Paul Cuba and Paul Reider, who formerly wore the colors of New Castle high, have taken part in Rose Bowl games. It is almost certain that Raskowski and Fleming will play in the coming tussle.

## HERE AND THERE IN SPORTS' LAND

Temple university has renewed a contract with Glenn (Pop) Warner, whereby the veteran football coach will serve in that capacity for three more years.

He is being offered, strangely enough, to the three active contenders, the Giants, Cubs, and Pirates, without nothing being said about the Cincinnati Reds. They only bid \$200,000 in cash at Montreal last week, which naturally left Mr. Rickey in a state of indignation. In the first place, he's said to be asking \$150,000 in cash alone from each of the three clubs mentioned. In the second, the players he names are among the ranking stars of the National League—and I'm under moral obligation not to make public those names for twenty-four hours.

After that, the only thing I tend to be under is a full head of steam. "I'll make the Dean deal," said Mr. Rocky last night, "if I can make the Cardinals."

If he can make the Dean deal on the terms outlined to me, he'll more than "make" the Cardinals. He'll "un-make" the club that does business with him. It's only fair to add that he refused to confirm my list, or comment upon it, and that he said the Dean deal was closer to consummation a week ago than it is now.

Price Of \$300,000  
The \$300,000 price, incidentally, is my own estimate, based upon the \$150,000 cash demand, plus the market value of the players declared to have been \$250,000 for the transfer of Joe Cronin from Washington to Boston a few years ago.

Of course, it may all wind up under the general head of light, airy banter, in which case Mr. Rickey will have built himself into a terrific amount of bickering when he comes to sign his ball player and the positively does not sound like the gentleman at all.

## Tifereth Israel, Christians And St. Pauls Win

Defeat First Baptists, Third U. P. And Epworth M. E. In Church League Games

(Special To The News)

Tifereth Israel served notice on the church basketball league boys last night with a fine 24 to 22 victory over the strong First Baptist team, with Baron and Abe Solomon the stars of the game.

The St. Pauls Lutherans handled the Third U. P. boys a 23 to 13 upturn in the second game with Figuly and G. Bender the big stars of the engagement. In the third and final game, the First Christians "tipped" the Epworth M. E. team 23 to 19 in an extra-period battle in which Morrison, Miles and Hughes were the best for the Christians and Davis and Nahas for the losers.

Wednesday night there will be three more games in the church league at the Y. M. C. A. floor as follows: First M. E. vs New Wilmington N. P.; St. Pauls vs Central Christians; First Presbyterians vs Tifereth Israel.

Mort And Small Picked By Tigers  
(International News Service)

The Beaver Falls High School Tiger football team recently picked two All-Star teams composed of players who faced them this year. New Castle drew two places on the first team: Charley "Stormy" Mort, a halfback, and Paul Small at guard. On the second team Louie "Beef" Leonard, Domenick "Jap" Covelli, George Vargo and Donnie DeCaprio drew berths.

All teams desiring games with the J. B. passers are requested to call 570 between 12:30 and 1 o'clock and ask for John Games are wanted for Wednesdays and Fridays. The J. B. team will open up in the House League.

## Bessemer Five Will Be Green

Coach Frederick Has Problem As Season Approaches; One Letterman

With a squad composed mostly of freshmen, Coach J. H. Frederick of Bessemer is endeavoring to build a basketball team that will continue the splendid play of last season's combination which won the Lawrence county basketball league title and also section 21 of the W. P. I. A. L.

The Cement City passers have completed their first week of practice. This year's quintet will be built around Nick Calderaro, the only returning letterman. Dick DeArment and Bill Anderson are being groomed for the guard posts. Three sophomores, Mario Calderaro, Harold DeArment and Tony Zornich, have an excellent opportunity of landing varsity berths. Johnny Samsa and Wilbur Summers, both seniors, are good prospects if they can make up in speed and dash what they lack in size. In Joe Kennedy, Bessemer has one of the finest freshmen candidates it has had in years. These men along with Melon Germanovich, Bill Shusman, Jimmie Mediate and Jimmie Pezulo, will in all probabilities carry the playing burdens throughout the floor campaign.

With some of the county teams having a decided edge in experience, it is difficult to predict the probable outcome of this year's Bessemer team. This season's of other teams, however, Coach Frederick is rather gloomy with the approach of the season. Bessemer fans are hoping that a slow start will spell bad news for county teams as was the case last season.

To date 15 games are on the schedule, December 22 and January 22 being still open. An Alumni contest will be arranged for one of the dates and a number of schools are being contacted for the other.

Wapum, Shenango, Union, Mt. Jackson, East Brook, New Wilmington and Princeton will be played at home and away. Lowellville, the annual headline, will be met at Lowellville.

## Union-Beaver Play Tonight

Opening Game Of 1936-37 Basketball Season At Union High Floor

Union High school basketball team, members of Section 22, and the county league will play off the lid of the 1936-37 basketball season tonight at the Union High court by meeting the fast Beaver high team in a pre-season engagement.

The preliminary game starting at 7:30 o'clock will find the Mahoning Junior High team against the Union Junior High quintet. The Seventh Warders feel confident of taking the measure of the Unionites.

Head Coach Dave Boyd has announced the Union starting lineup for tonight as follows: Joe Ostrowsky and Davies at the forwards, Stevenson at center and Wotowitz and Morrison at the guards.

Union has almost a veteran combination back this year and the Union Townshippers are expected to be one of the toughest teams in the county and in their section of the W. P. I. A. L. this season. The game tonight will give Boyd a fine idea on the relative strength of the Unionites.

This is the first game for Union and should draw a big crowd to the Union township floor.

Biondi To Witness  
Tenth Bowl Tussle

When Pitt and Washington lineup for the kick-off in the coming Rose Bowl game on January 1, a former New Castle resident, Joseph Biondi, will be witnessing his tenth Rose Bowl contest.

Mr. Biondi will entertain Charles Fleming and Walter Raskowski, Pitt gridgers, residents of this city, he stated in a recent letter. Biondi lives in Los Angeles, Calif.

## Believe Five French Fliers Lost In Ocean

Jean Mermoz Famous French Airman And Four Companions Overdue In Brazil

(International News Service)  
RIO DE JANEIRO, Dec. 8.—Long overdue at Natal and silent for 24 hours on a mail flight from Dakar, Senegal, Jean Mermoz, French survivor of innumerable aerial escapades, was believed today to have played out his amazing luck and gone to his death with four companions in the South Atlantic.

The five were due here at midnight in the mail plane Croix De Sud, and searching planes reported no trace of them.

In 1930 Mermoz made the first South Atlantic mail flight, and on the return hop eastward was forced down 350 miles at sea. He holds the record of 14 hours for the Africa-Brazil crossing.

Later he was sold as a slave to the sultan of Taroudant when he was forced down in the Sahara desert on payment of \$2,500 ransom.

His flying career started in the World war.

## Believe Five French Fliers Lost In Ocean

Jean Mermoz Famous French Airman And Four Companions Overdue In Brazil

(International News Service)  
RIO DE JANEIRO, Dec. 8.—Long overdue at Natal and silent for 24 hours on a mail flight from Dakar, Senegal, Jean Mermoz, French survivor of innumerable aerial escapades, was believed today to have played out his amazing luck and gone to his death with four companions in the South Atlantic.

The five were due here at midnight in the mail plane Croix De Sud, and searching planes reported no trace of them.

In 1930 Mermoz made the first South Atlantic mail flight, and on the return hop eastward was forced down 350 miles at sea. He holds the record of 14 hours for the Africa-Brazil crossing.

Later he was sold as a slave to the sultan of Taroudant when he was forced down in the Sahara desert on payment of \$2,500 ransom.

His flying career started in the World war.

## Arnold Father Goes On Trial

Kenneth Wagner Is Charged With Plotting "Lye" Murder Of His Infant Daughter

(International News Service)  
GREENSBURG, Pa., Dec. 8.—Kenneth Wagner, 30, an aluminum worker of Arnold, charged with plotting the "lye murder" of his infant daughter, Dorothy Louise, last July, went on trial here today before Judge J. Hilary Keenan with indications the death penalty will be demanded.  
"Not guilty," Wagner responded in a weak, nervous voice after court clerk Charles Hawk read the murder indictment.  
Mrs. Jessie Hankey, a former maid in the Wagner home who testified Wagner forced her to feed the infant lye, was doomed to life imprisonment by a jury which heard her case. She was expected to be the commonwealth's "star witness" against Wagner.

**Four Jurors Picked**  
Of the first 32 jurors called by the commonwealth and defense only four were accepted. They were: Mrs. Carl Muffley, housewife, Bell township, foreman; David Horner, merchant, Ligonier township; Menden Freeman, farmer, Mt. Pleasant township and Leroy Overly, mechanic, Donnell township.  
Mrs. Muffley was a member of the jury which in November, 1934, found Robert Frye, a Greensburg taxicab driver, guilty of first degree murder in the fatal stabbing of Mrs. George M. Clements and doomed to life imprisonment.

The fact that Assistant District Attorneys C. Ward Eicher and Charles D. Copeland, Jr., would accept no jurors opposed to the death penalty indicated that the commonwealth will endeavor to send Wagner to the electric chair.

## New York City Man Reaches 110th Birthday

Tobias Wildstein, Goes For Walk, Climbs Flight Of Stairs, Plans On Getting Married

(International News Service)  
NEW YORK, Dec. 8.—Tobias Wildstein, a young 'un who likes to slip out for a brisk stroll on days when the mercury tumbles to near zero, celebrated his 110th birthday today.

There were rumors, unconfirmed, that before nightfall Tobias might make the momentous announcement that he had found for his bride the "nice young girl with plenty of money," about whom he spoke wistfully at his 109th birthday party last year.

The rumors hinted that Tobias had found a mere slip of a girl, only seventy years old, and that as soon as a negligible disagreement over the dowry was straightened out Tobias would ask that his name be removed from Manhattan's list of eligible bachelors.

Today found Tobias in his usual good health. On the eve of his birthday, the bearded patriarch of the sons and daughters of Israel strode forth, disdaining a cane, for a walk of several hours duration.

At its conclusion, he climbed a flight of stairs—unassisted, he would have you know—to the main lobby of the home and polished off a snack of oatmeal, coffee, bread and butter with evident relish.

## Mayor Holds Court Monday Afternoon

Several Cases Of Offenders Aired At City Hall By His Honor

It was reported that when Williams and Shaner attempted to arrest the pair, Behle resisted Williams and fled to his home. Later both Behle and Stamati were arrested.

Mike Horne, said to be from Ohio, and Evelyn Trent, also said to be a recent arrival here, were arrested on a charge of disorderly conduct in a Moravia street house, Sunday. The arrests were made by a squad of police led by Captain of Detectives Ray Showalter. Mayor McGrath fined the defendants \$5.00 each.

## Cochrane Says No, To Deals In New York City

**Refuses To Trade Auker For Whitehead Or York And Laabs For Whitehead**

**M'KECHNIE MAY PEDDLE BERGER**

By PAT ROBINSON  
International News Service Sports Writer

NEW YORK, Dec. 8.—Babe Ruth's back in the baseball spotlight today, with everybody wondering if he'll accept Joe Cambria's offer to manage the Albany club . . . and most of the cognoscenti will wager a few megas Mrs. Ruth wouldn't let Babe accept . . . even if Cambria could offer him enough dough.

New American league directors will be voted in today. They are Don Barnes of the Browns, Walter Briggs of the Tigers, Connie Mack of the Athletics and Clark Griffith of the Senators.

Goose Goslin's day may be numbered with the Tigers. Mickey Cochrane would like to lure pitcher Buck Newsum from the Senators, and says he won't trade Elden Auker even up for Johnny Whitehead.

Cochrane Says No  
Jimmy Dykes, complete with cigar, would like to swap Whitehead for Rudy York and Chet Laabs. Mickey says no dice—and if Hank Greenberg's arm is okay . . . he'll try York in the outfield.

Casey Stengel has turned down half a dozen jobs. Not enough dough, sez Casey. . . . And why should I worry when the Dodgers have to pay me for my contract?

Saddest home around is Bill (Bees) McKechnie. Sez he's not peddling Wally Berger. But if anybody wants to talk turkey with a good pitcher and a grade A infielder, he's willing to listen.

Connie Mack has a speculative gleam in his eye when he laments Tom Yawkey . . . but Tom and aide-de-camp Eddie Collins are keeping both hands in their pockets. Werber plus cash deal for Pinkie Higgins seems to have fallen through.

Cohen Wants Job  
Al Cohen, ex-Dodger outfielder, is trying to hook up with the White Sox as a pitcher. Won't even for Toledo last year. Took to the mound as a volunteer when the club was short of men . . . and won four straight.

Dutch Ruether, ex-Yank and ex-Dodger, still out of luck hunting a job. Sez he might as well take up plumbing as accept some of the offers made to him.

## Need Change In Grid Rule

By TOM THORPE  
International News Service Sports Writer

NEW YORK, Dec. 8.—The need for change in the forward pass interference rules is again emphasized as the result of the many penalties inflicted for violations of this important section of the grid code during the season.

Hardly any section of the country that did not witness some infractions of this rule. In almost a majority of cases, dissatisfaction was expressed for the imposition of the extremely damaging penalty.

The whole dissatisfaction with the forward pass interference penalty is the rule itself. It comes into play for discriminating between offensive or defensive violations of this rule. If the attacking side is found guilty of interference on a forward pass it is penalized 15 yards from where the ball was last put in play and an extra down tacked on. In other words, if the violation comes on second down with eight yards to go, the ball is moved back 15 yards and it is then third down and 23 yards to be gained.

Few complaints are heard from interference taking place five or more yards beyond the line of scrimmage. This is because the penalty for violation in this territory is well taken care of under present conditions. It is on long passes, which go from 30 to 40 yards down the field, the real kicks occur.

Penalty Inequitable  
It does not appear equitable to penalize a defensive team 30 or 40 yards for such an offense, whereas the same violation committed by the attacking side calls for but 15 yards. That is the crux of the situation. If the rule-makers will change the penalty to read the same in each case, much of the criticism which is now being aimed at impartial officials would not be heard.

Many coaches, too, feel strongly that the defensive player should be furnished more latitude in covering eligible players. They argue that under the present rule the defense faces a stiff mental hazard as well as an extremely severe penalty should it come into contact with an eligible player of the attacking side before the latter touches or is touched by the ball.

They claim this is what causes so many football teams to become jittery when the opposition begins heaving passes, especially if they are fortunate enough to connect with one long gain or score.

Some think the rule committee should place some sort of limit upon the pass. They argue that under present conditions the foot has been taken out of football. They would like to see less throwing and more kicking. The last few minutes of most contests give one the impression of a horse-shoe pitching match. The team behind begins throwing the ball about in the hope one of its wild heaves will fall into the arms of an eligible player.

Offers Suggestion  
No one should criticize who has not a constructive suggestion for the correcting of the evil. We are going to offer a suggestion which we feel sure will not only rid the game of much unjust criticism but will return the foot back in football.

First—Make the forward pass interference rule uniform. Violations to be penalized by imposing 15-yard penalties from the spot of the preceding down. In case of the offense being guilty of the violation add an additional down. Violations by the defense ought to be ruled first down after the penalty is imposed.

Second—Violations behind the goal line to the penalized spot of the preceding down, no penalty carrying the ball closer than the 3-yard line.

Third—Bring the onside kick back into the game.  
Such changes would eliminate criticism and open up the game. Then coaches would have to develop kickers and not devote all their time in discovering a passer and receiver. Then we would have the foot brought back into football.

Elmer Layden, whose inspired Notre Dame team routed Northwestern in another major upset recently, and who has seen the Duke center and captain perform against big league opposition has said: "Basrak can make any team in the country."

## Westminster To Open Season On Thursday

(Special To The News)  
NEW WILMINGTON, Pa., Dec. 8.—Opening the 1936-37 season with the strong Salem college five from West Virginia, the Westminster Titans, now under the coaching of George W. Roark, will get their initial chance to indicate their strength Thursday evening, December 10, on the New Wilmington floor.

Last year's season for the West Virginians was good, even though they ended with a 9 won and 8 lost average. Although Salem's schedule included plenty of tough opposition, they finished among the conference leaders. The Titans after giving Coach Davis' team a severe drubbing in the 1934-35 season on their local floor, lost a one-point decision to the West Virginians in a return game. The two teams failed to meet last season.

Whether the Titans under a new brand of coaching and minus the service of such court stars as "Swede" Hunneke, Wes Bennett, Jack Willits, and Paul Backus, can produce the usual successful season or not will probably be answered partially Thursday night. Coach Roark will be without the offensive and defensive strength which brought the 1935-36 Titans a 20 won and 6 lost average for the season. Even last year, Westminster was decidedly handicapped in reserve

strength, and scored its victories with the favorite starting five combination of Bennett, Willits, Hunneke, Krivosh and Backus. Krivosh alone remains from last years scoring machine, built chiefly around the phenomenal basket shooting of Bennett.

Among the possible Titan starters will be Demo, last year's paradox, who was either "hot" or "off" throughout the season in the scoring department; Ken Grubb, letterman and substitute forward, from Youngstown, a fast and aggressive player, but likely to go out on fouls early in the game; Krivosh, Sharon guard, a splendid floorman and excellent on long shots; Susie Gilliland, New Wilmington forward; Meyer, Lowellville, a clever ball-handler but somewhat handicapped by height and weight; Mel Miller, New Brighton freshman, who played on Roark's team at New Brighton last year, and Henry Throup, lanky blonde forward from Bessemer, who was the star of last year's intramural season at Westminster.

Others who may see action in the game are McGeech, Rowlands, M. Pawk, Mintz, and Westerman. The game has been set for 8:45, a half hour later than usual starting time, to allow the 300 visiting Rotarians at the Pancake Rodeo to see the contest.

Lettermen of the 1936 squad to be honored are: James E. Bay, Ed Brown, Paul Butler, Robert Harder, Anthony Krulatz, Jack Laraway, Dave Mintz, John Susko, Frank Brettholz, Kenneth Grubb, Forbes Holton, Julius Laposki, Mel Miller, Mike Pawk, Harry Shoup, and Dale Yaukers.

## Bessemer Five Will Be Green

Coach Frederick Has Problem As Season Approaches; One Letterman

With a squad composed mostly of freshmen, Coach J. H. Frederick of Bessemer is endeavoring to build a basketball team that will continue the splendid play of last season's combination which won the Lawrence county basketball league title and also section 21 of the W. P. I. A. L.

The Cement City passers have completed their first week of practice. This year's quintet will be built around Nick Calderaro, the only returning letterman. Dick DeArment and Bill Anderson are being groomed for the guard posts. Three sophomores, Mario Calderaro, Harold DeArment and Tony Zornich, have an excellent opportunity of landing varsity berths. Johnny Samma and Wilbur Summers, both seniors, are good prospects if they can make up in speed and dash what they lack in size. In Joe Kennedy, Bessemer has one of the finest freshman candidates it has had in years. These men along with Melon Germanovich, Bill Shusman, Jimmie Mediate and Jimmie Perzulo, will in all probabilities carry the playing burdens throughout the floor campaign.

With some of the county teams having a decided edge in experience, it is difficult to predict the probable outcome of this year's Bessemer team. This season's five will possess the characteristics of other teams, however. Coach Frederick is rather gloomy with the approach of the season. Bessemer fans are hoping that a slow start will spell bad news for county teams as was the case last season.

To date 15 games are on the schedule, December 22 and January 22 being still open. An Alumni contest will be arranged for one of the dates and a number of schools are being contacted for the other. Wampum, Shenango, Union, Mt. Jackson, East Brook, New Wilmington and Princeton will be played at home and away. Lowellville, the annual headline, will be met at Lowellville.

## Union-Beaver Play Tonight

Opening Game Of 1936-37 Basketball Season At Union High School

Union High school basketball team, members of Section 22, and the county league will pry off the lid of the 1936-37 basketball season tonight at the Union High court by meeting the fast Beaver high team in a pre-season engagement.

The preliminary game starting at 7:30 o'clock will find the Mahoning Junior High team against the Union Wardens. The Seventh Wardens feel confident of taking the measure of the Unionites.

Head Coach Davey Boyd has announced the Union starting lineup for tonight as follows: Joe Ostrosky and Davies at the forwards, Stevenson at center and Wotowita and Morrison at the guards.

Union has almost a veteran combination back this year and the Union Townshippers are expected to be one of the toughest teams in the county and in their section of the W. P. I. A. L. this season. The game tonight will give Boyd a fine idea on the relative strength of the Unioners.

This is the first game for Union and should draw a big crowd to the Union township floor.
